“Moving without Bones”

<http://monsterfinance.wordpress.com/2008/08/18/16/>

Wb2436-05, Paul Breedveld, Hydrostatic Stiffness & Motion

# Overview

## Biological Mechanism

Tendon Sheath

Hydrostatic Skeleton System

Hydrostatic Muscular System

## Resulting Technology

Rolling Donut Mechanism

Cable-Ring Mechanism

Tendon Sheath

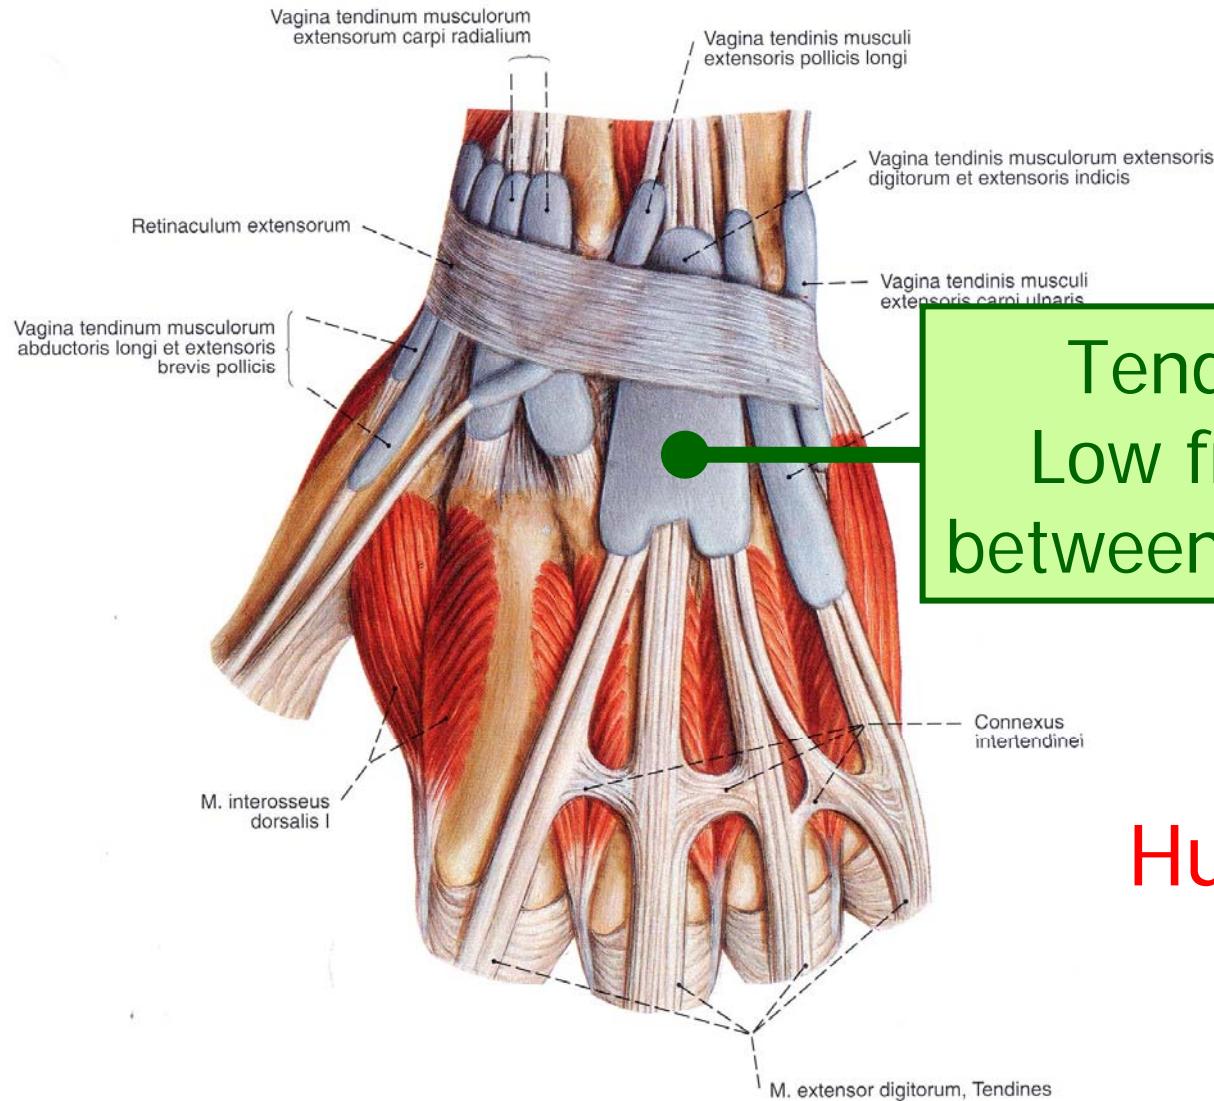

Hydro Skeleton

Hydro Muscular

## Tendon Sheath

## Hydro Skeleton

## Hydro Muscular

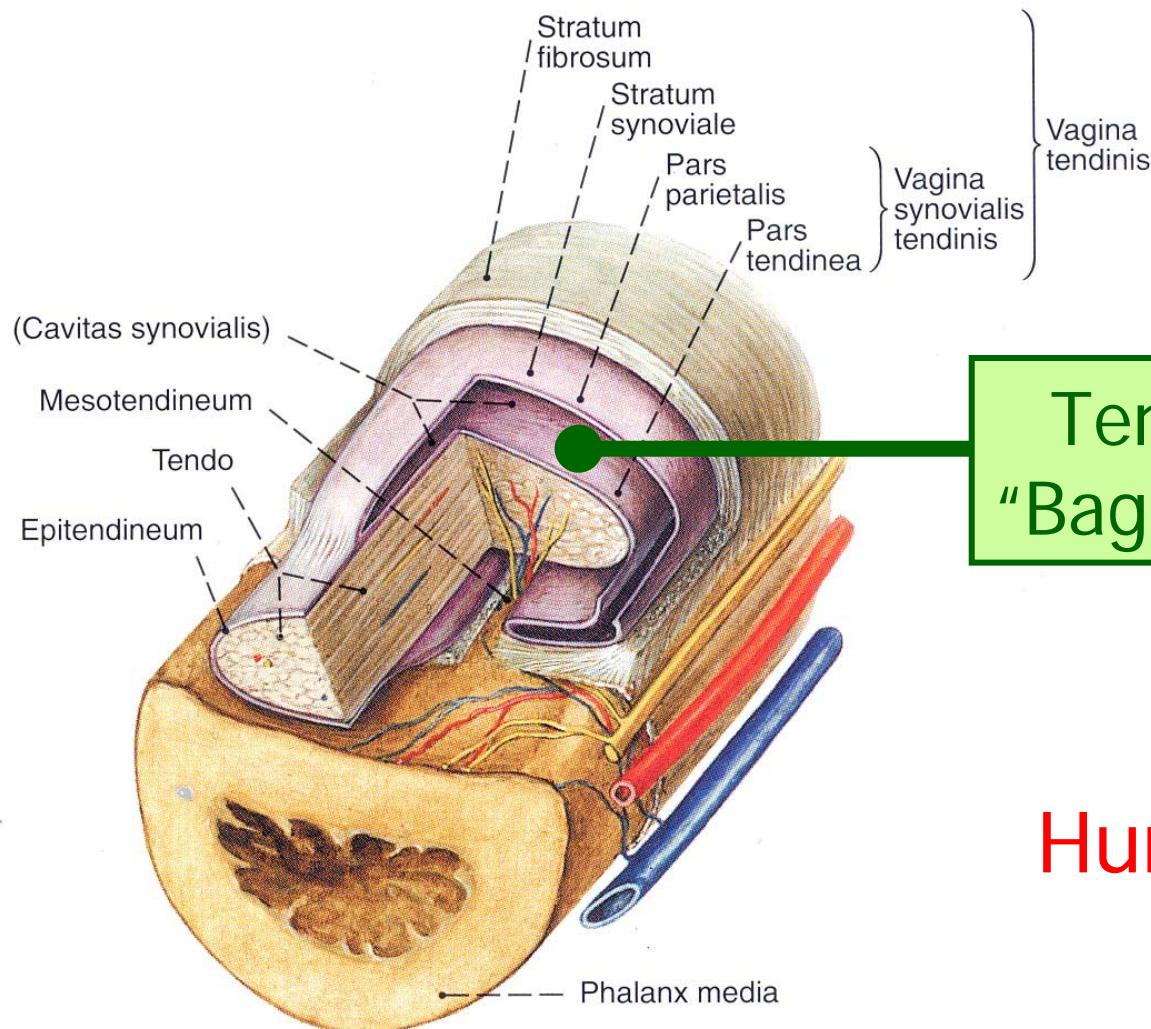

Tendon Sheath =  
Low friction bearing  
between tendon & tissue

Human Hand

## Tendon Sheath

## Hydro Skeleton

## Hydro Muscular

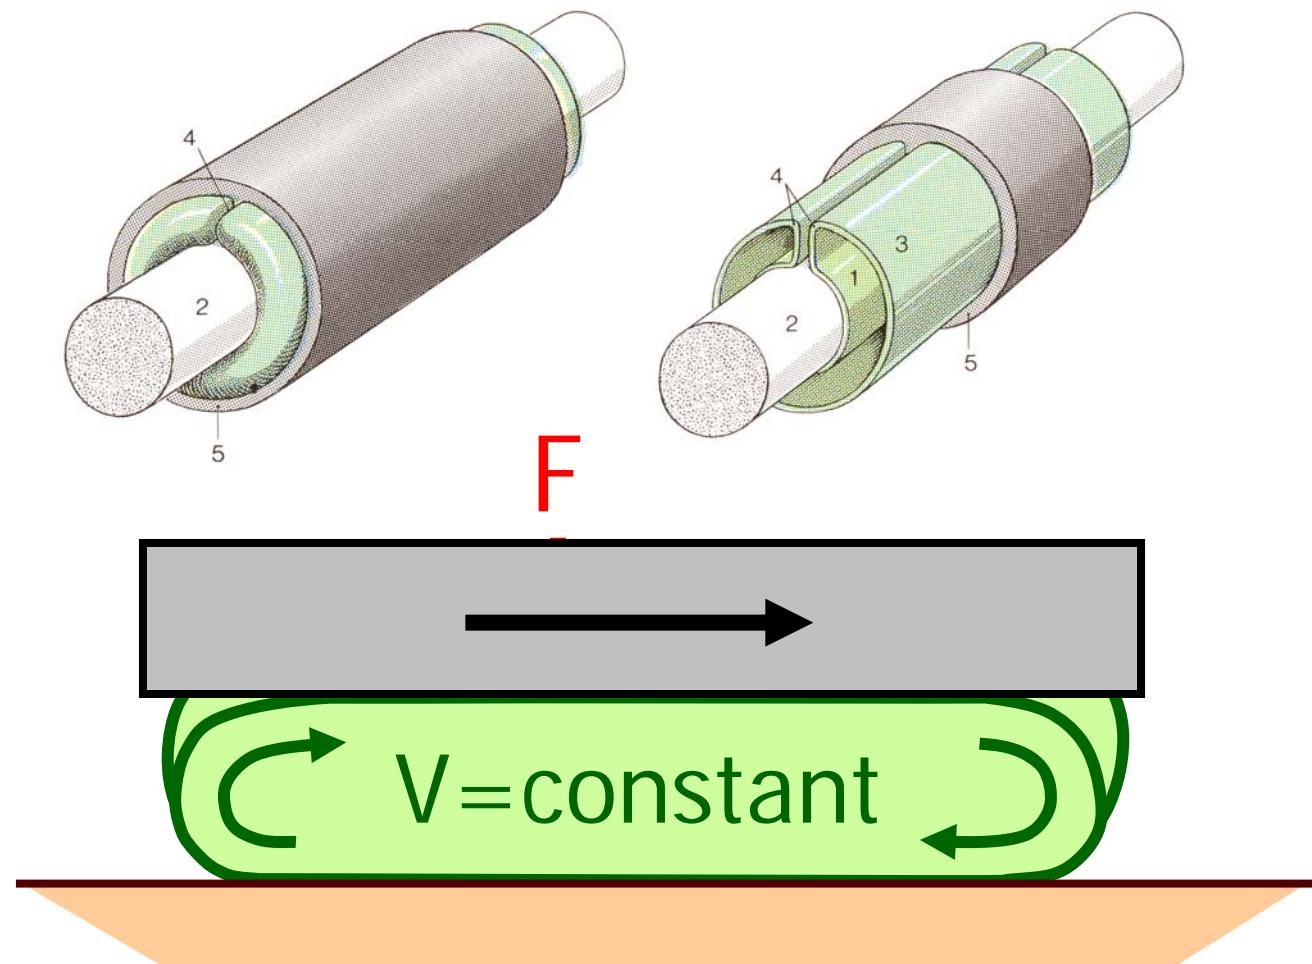

Tendon Sheath =  
"Bag" filled with fluid

Human Finger

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Rolling Donut

Pain!

Pain!

Stick

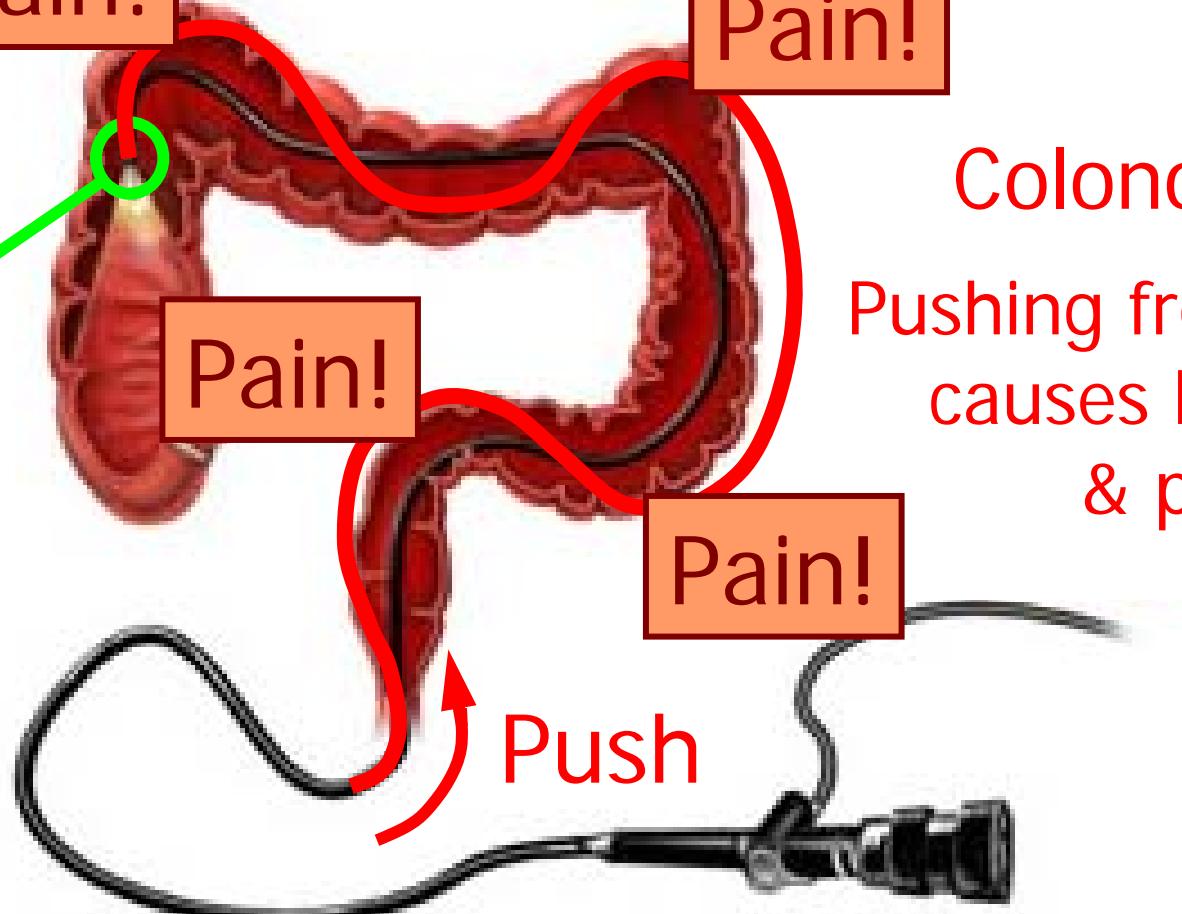

Pain!

Pain!

Push

Colonoscopy

Pushing from behind  
causes buckling  
& pain

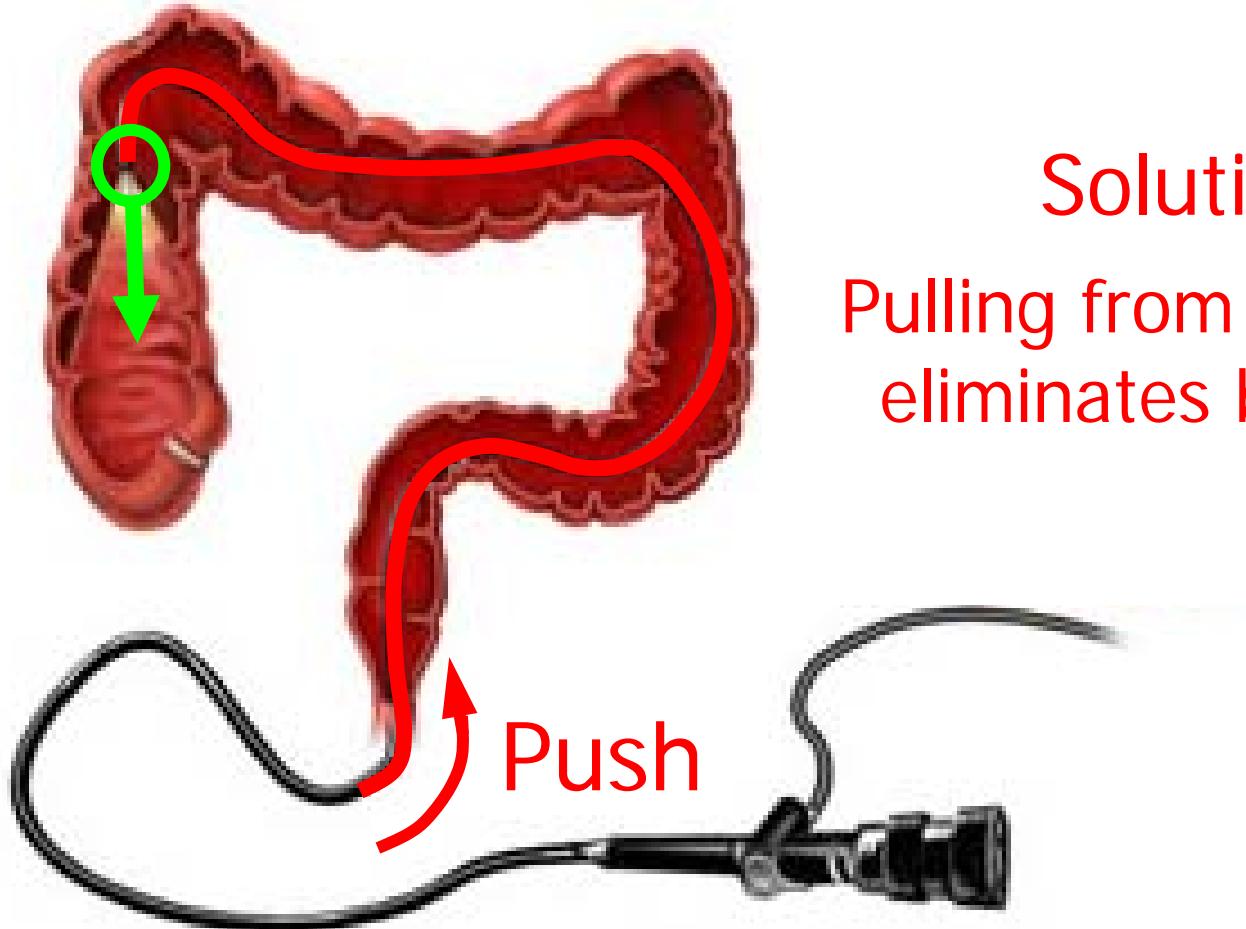

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Rolling Donut

Pull

## Solution

Pulling from the front  
eliminates buckling

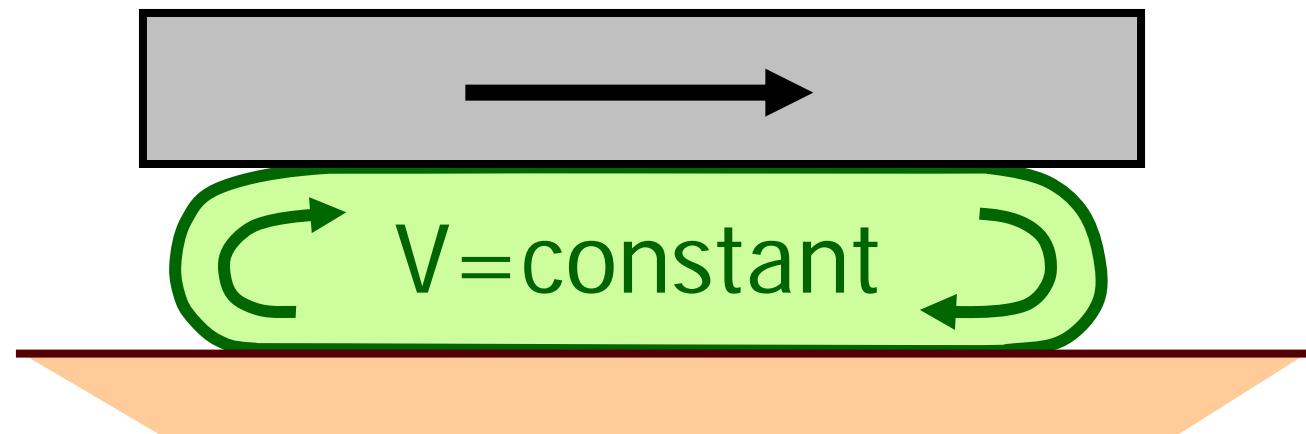

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Rolling Donut

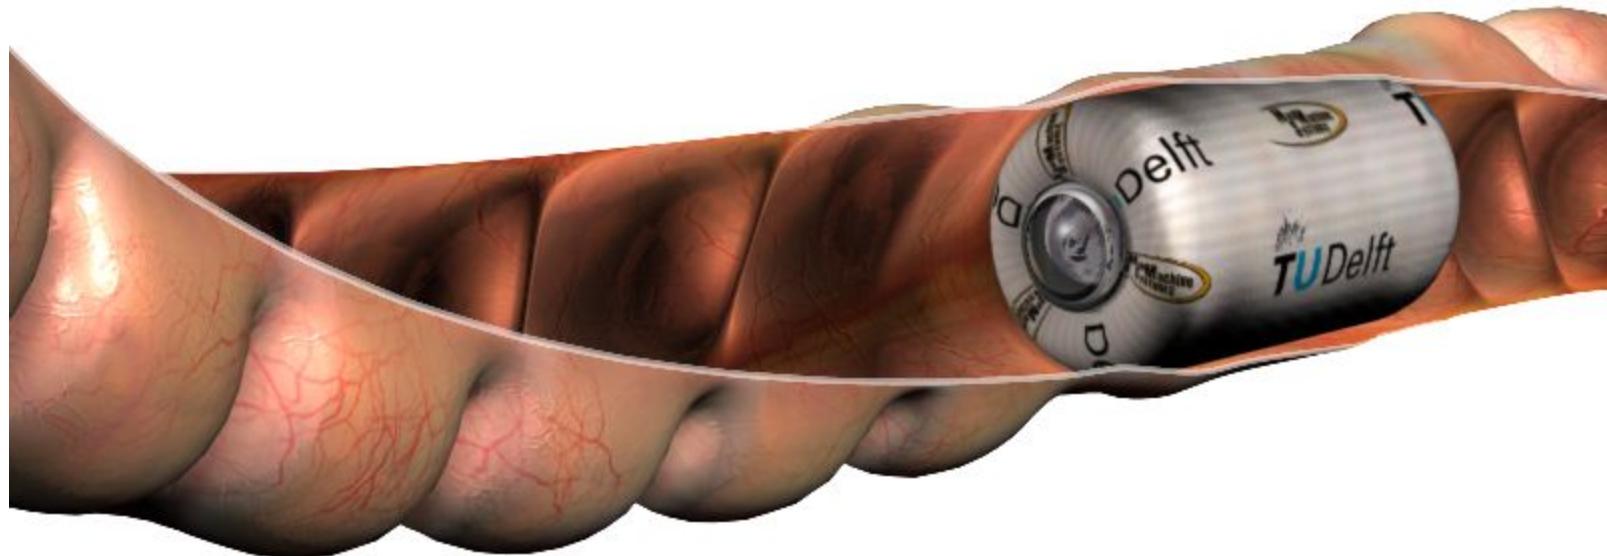

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Rolling Donut

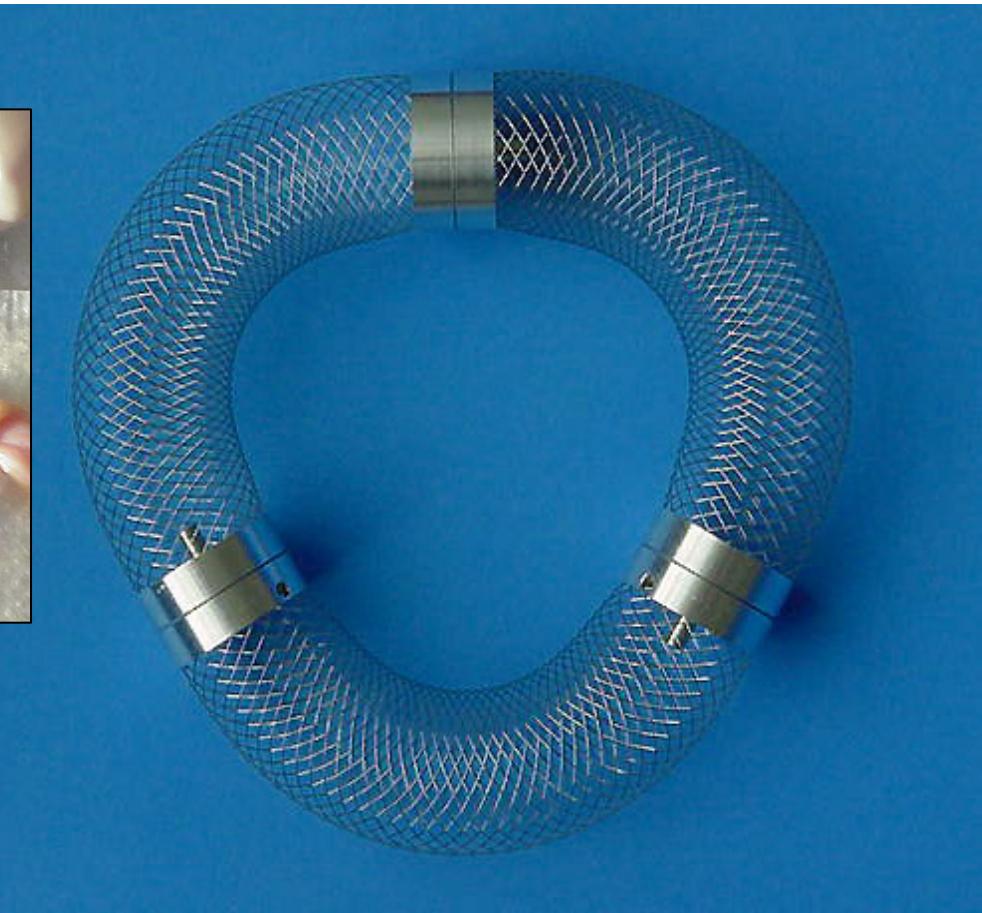

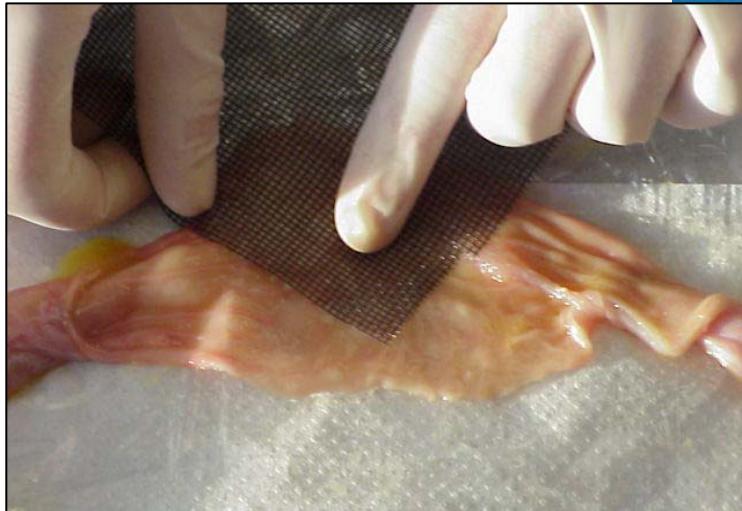

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Rolling Donut

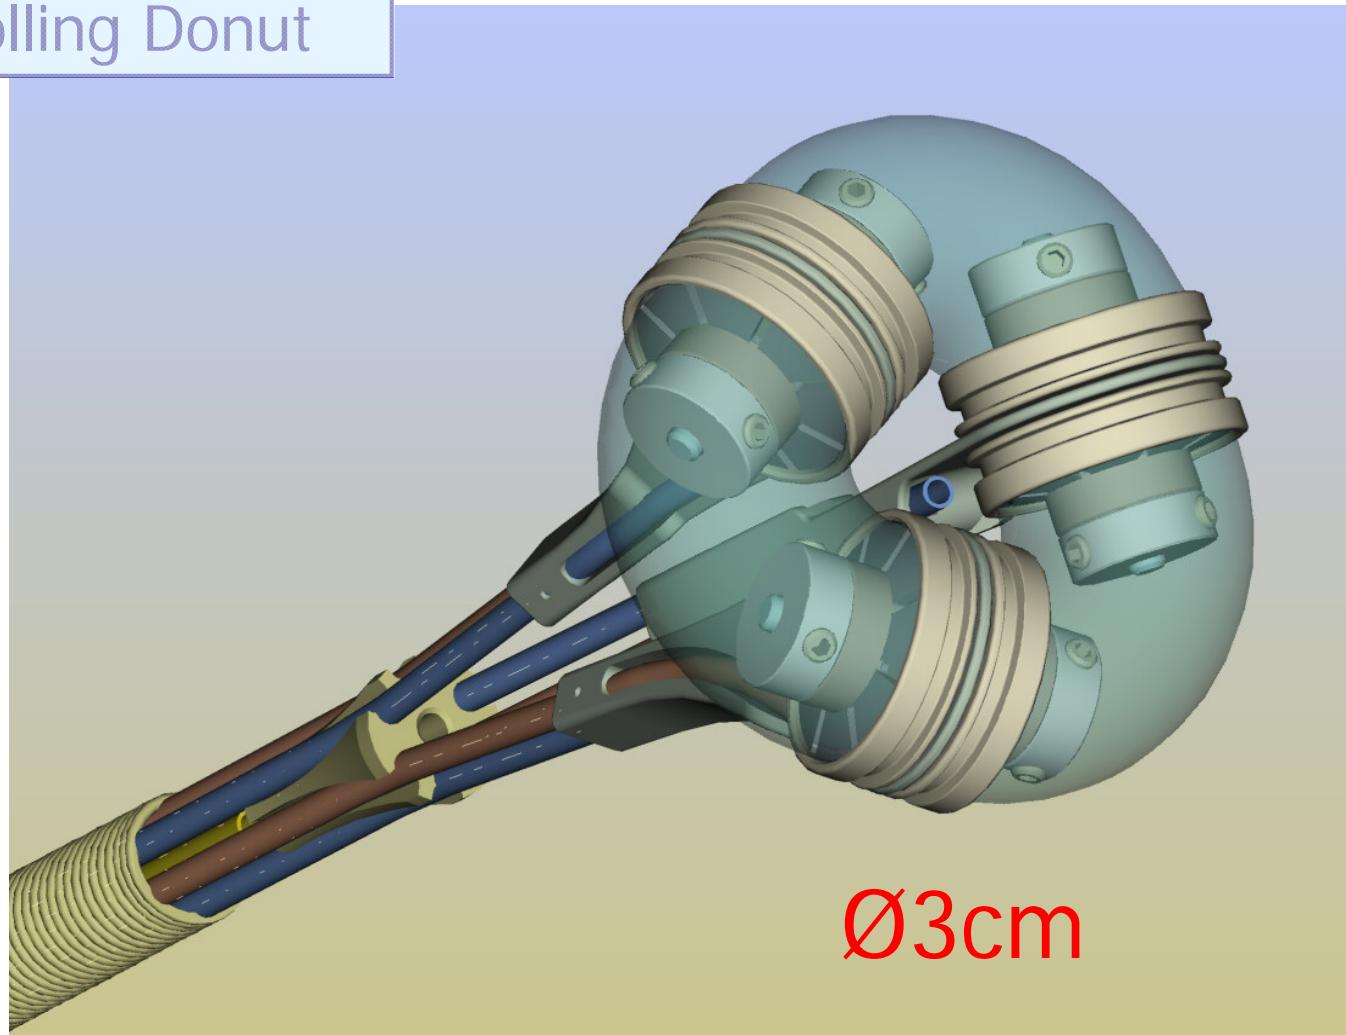

Mesh gives  
high Friction

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Rolling Donut

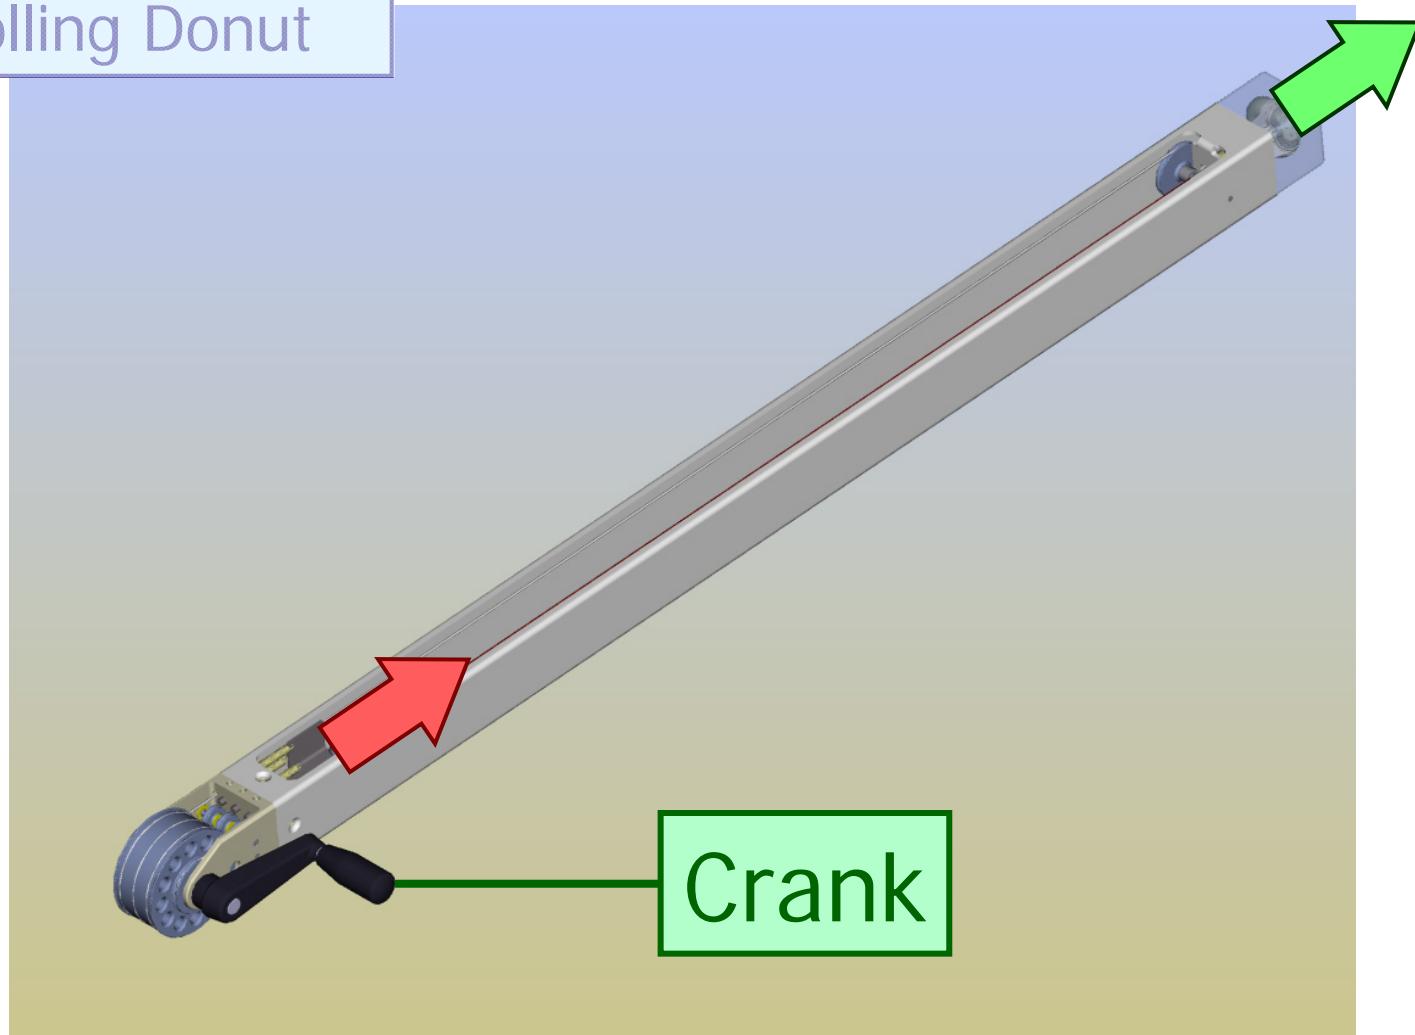

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Rolling Donut

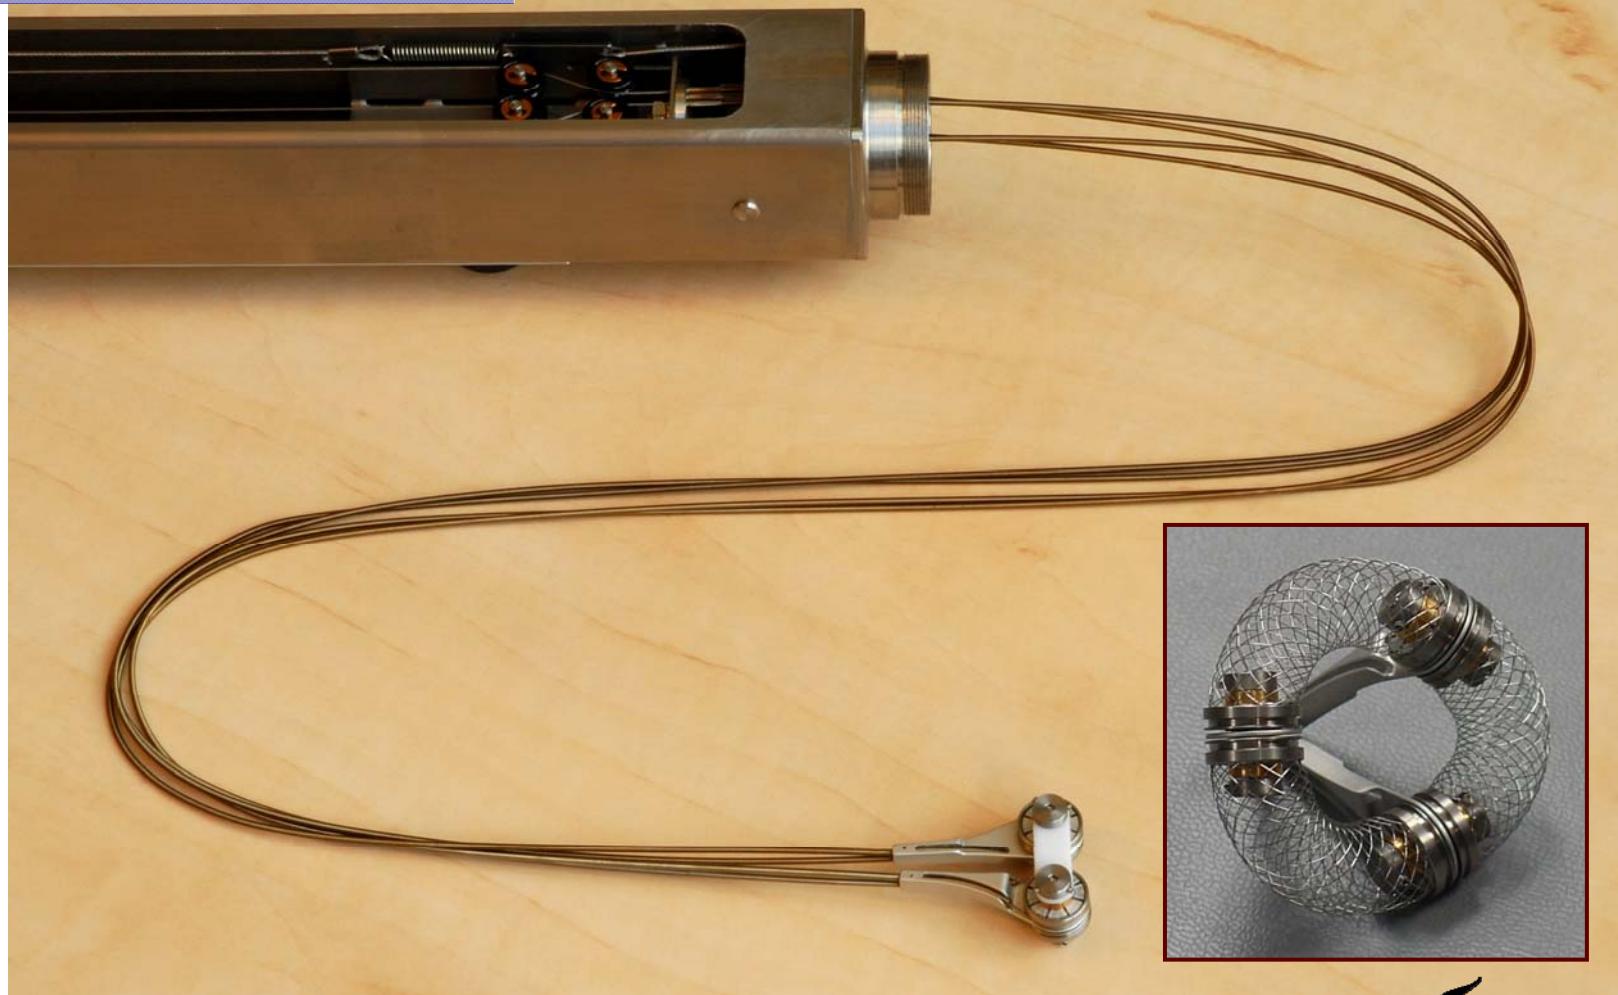

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Rolling Donut

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Hydrostatic Skeleton System =  
Skeleton consisting of  
segments filled with fluid &  
surrounded by muscles

“How to Push when you can only Pull?”

Tendon Sheath

Hydro Skeleton

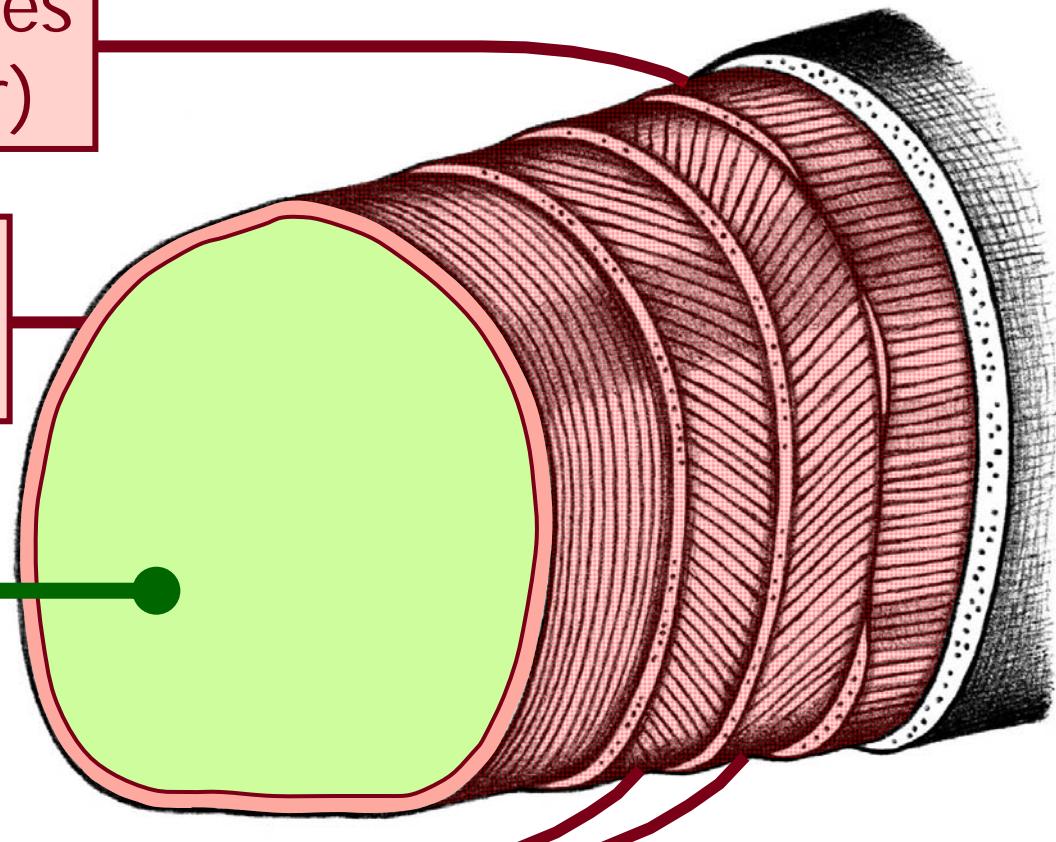

Hydro Muscular

Longitudinal Muscles  
(shorter & thicker)

Circular Muscles  
(longer & thinner)

Fluid  
( $V=$ constant)

Helical Muscles  
(axial rotation)

Tendon Sheath

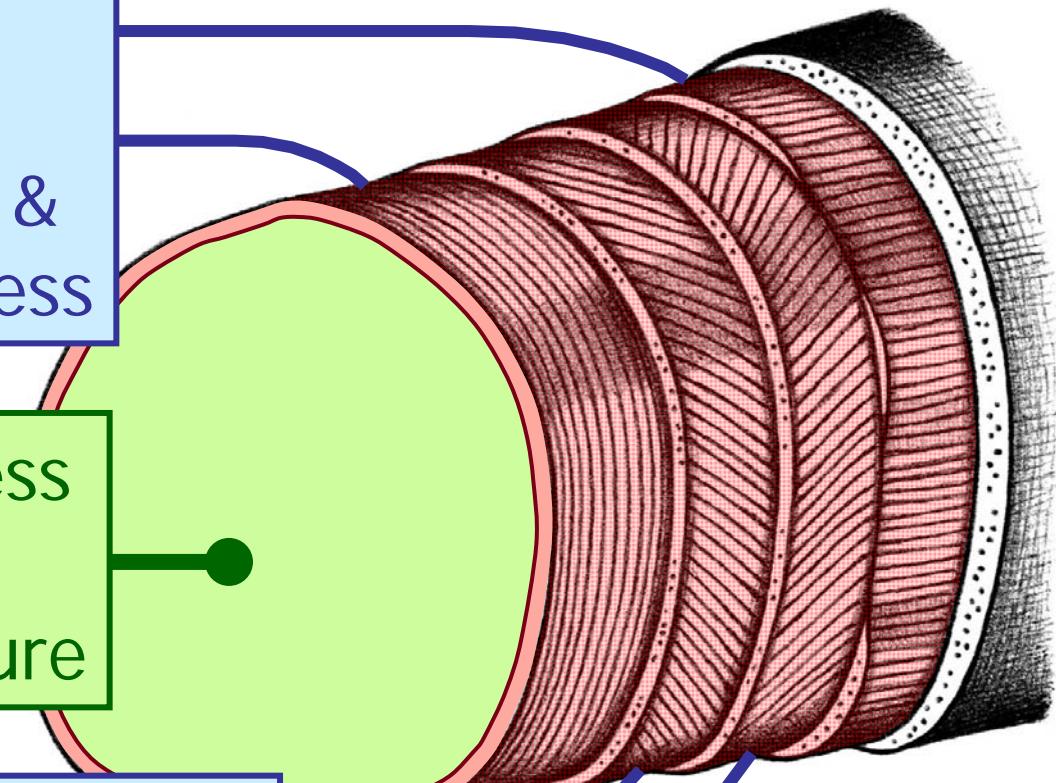

Hydro Skeleton

Hydro Muscular

*Antagonists:*  
Control of  
bending stiffness &  
longitudinal stiffness

Increasing stiffness  
leads to higher  
hydrostatic pressure

*Antagonists:*  
Control of torsion stiffness

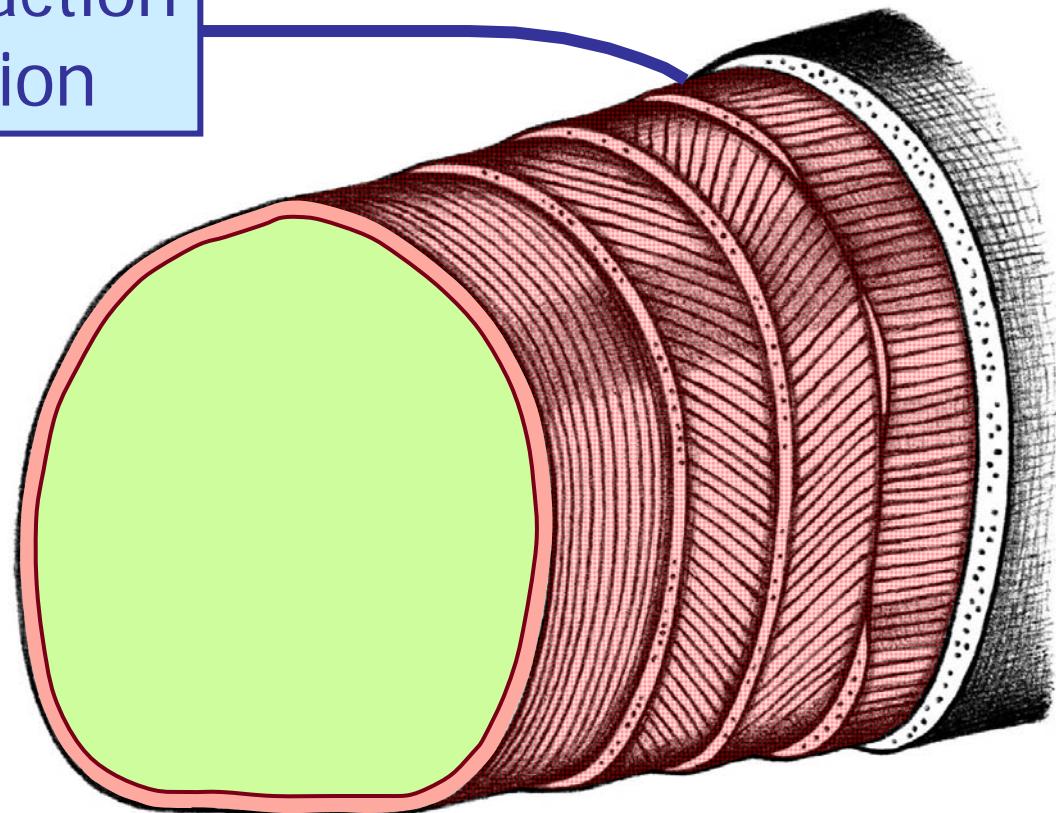

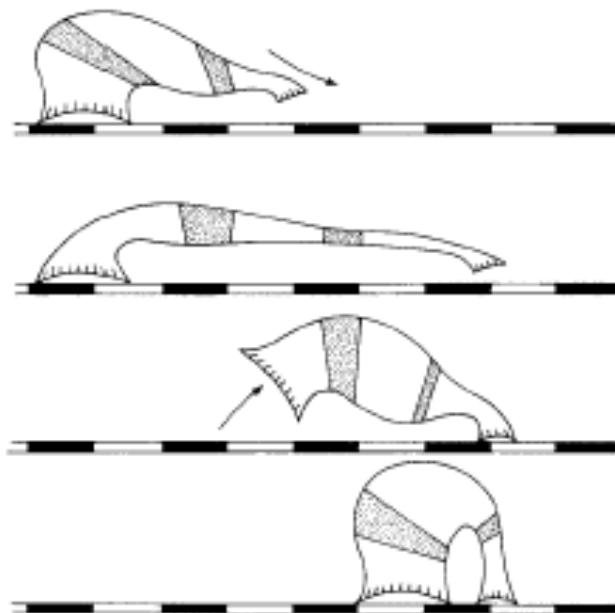

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Asymmetric contraction  
→ Bending motion

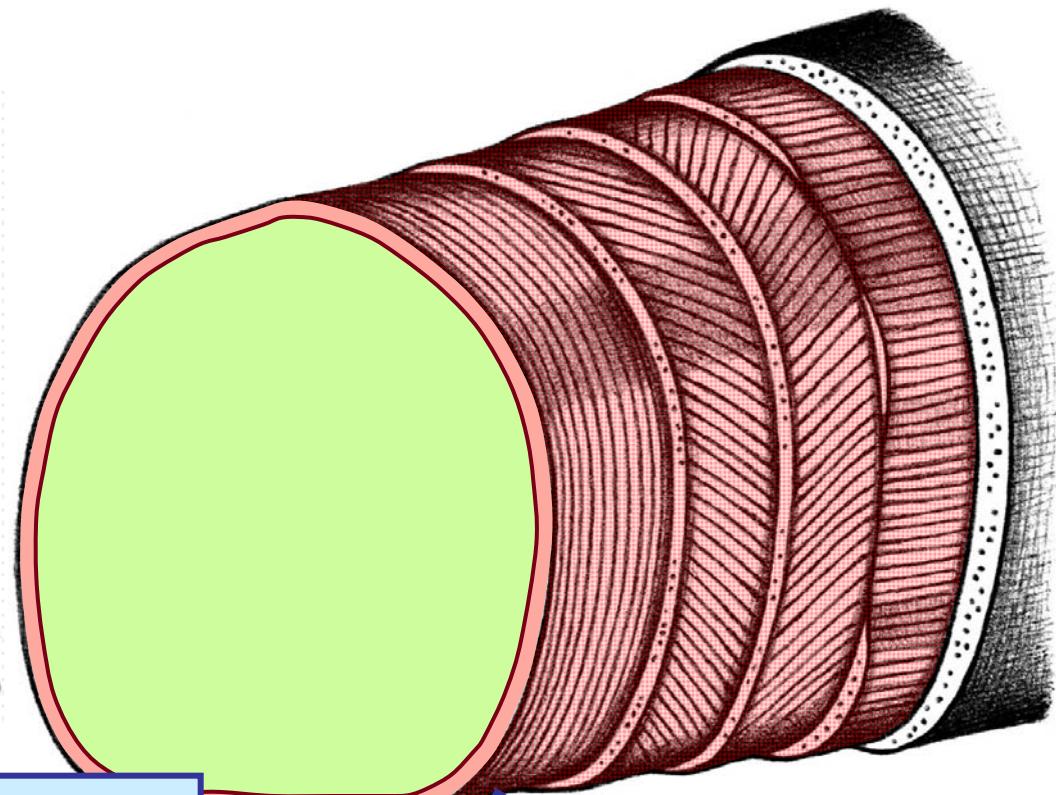

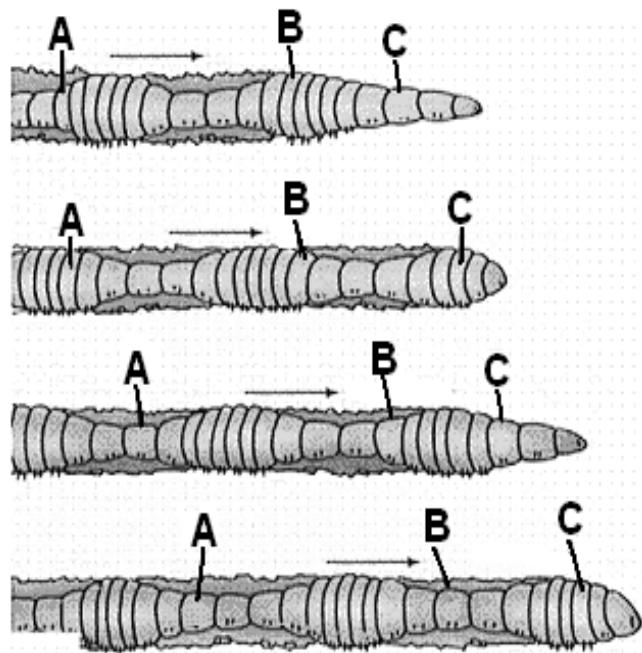

Leech

Tendon Sheath

Hydro Skeleton

Hydro Muscular

# Earthworm

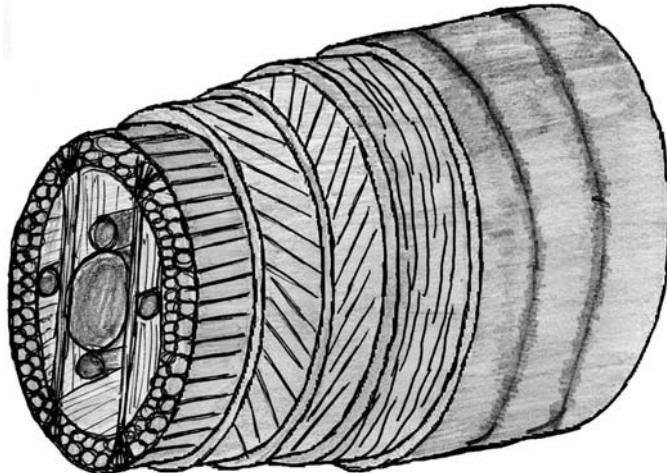

Asymmetric contraction  
→ Peristaltic motion

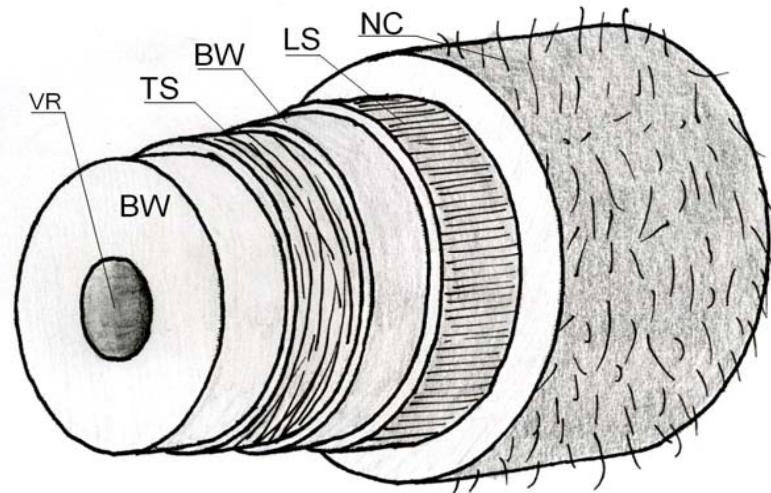

Tendon Sheath

Hydro Skeleton

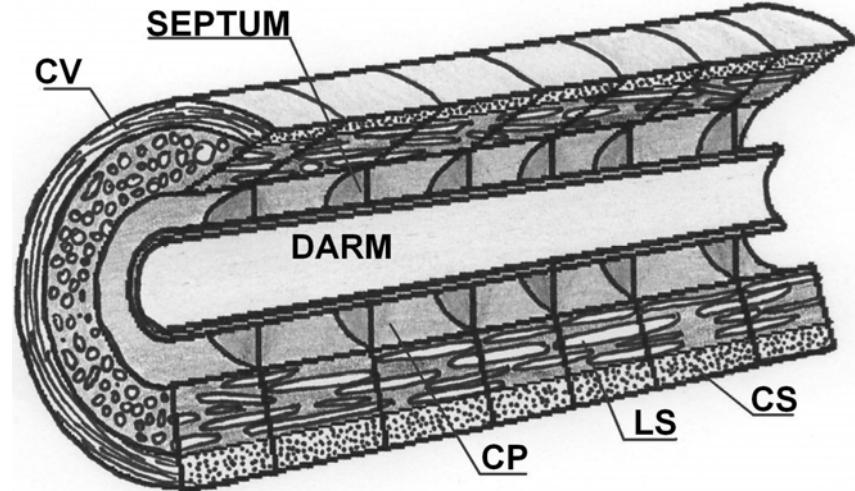

Hydro Muscular

Leech

Wb2436-05, Paul Breedveld, Hydrostatic Stiffness & Motion

Earthworm:  
No helical muscles

Anemone:  
Lot of connective tissue  
Not stretchable

Tendon Sheath

Hydro Skeleton

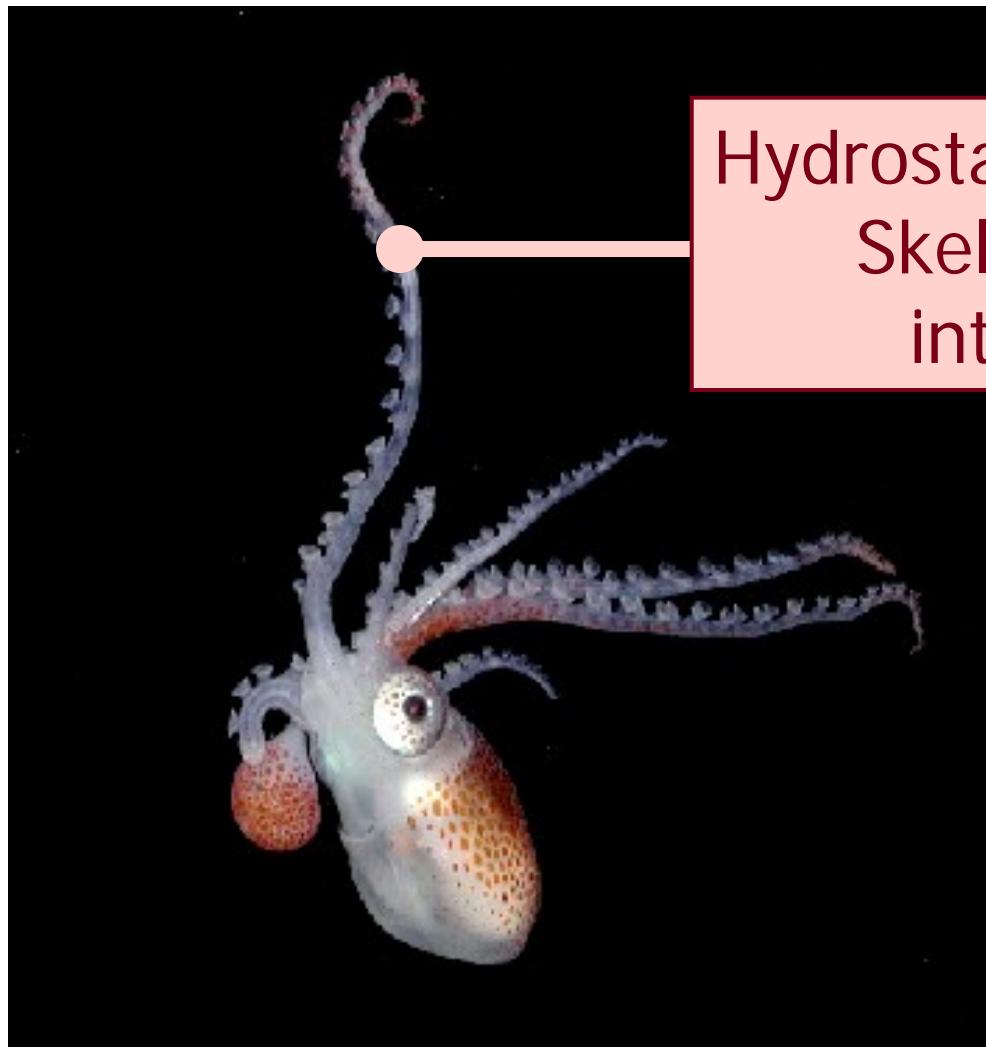

Hydro Muscular

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Hydrostatic Muscular System =  
Skeleton consisting of  
interacting muscles

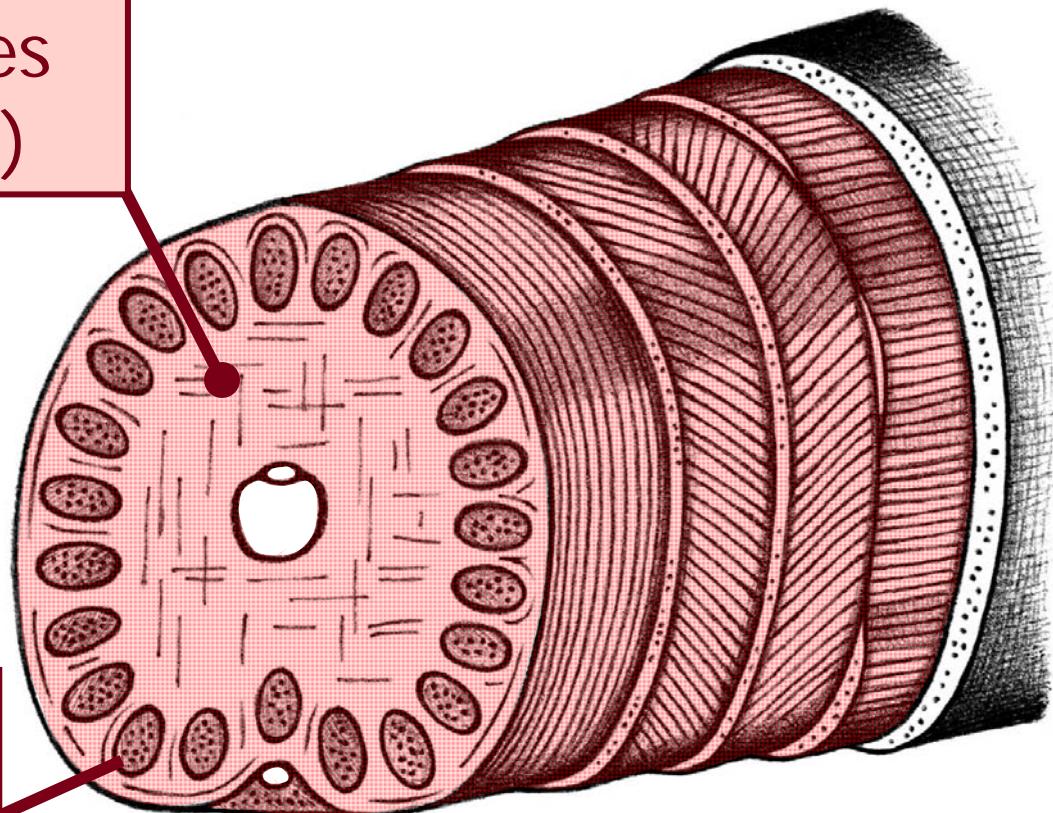

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Transverse Muscles  
(longer & thinner)

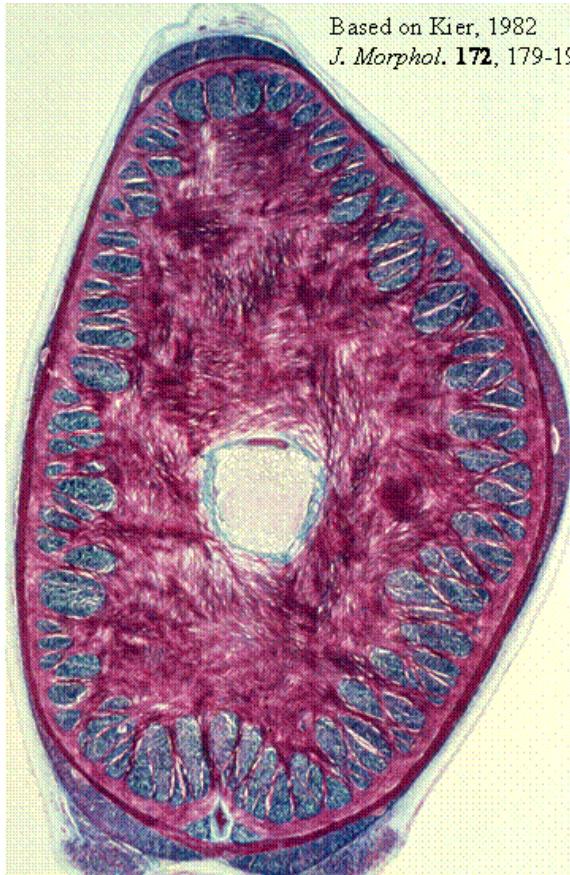

Longitudinal  
Muscle Bundles  
(shorter & thicker)

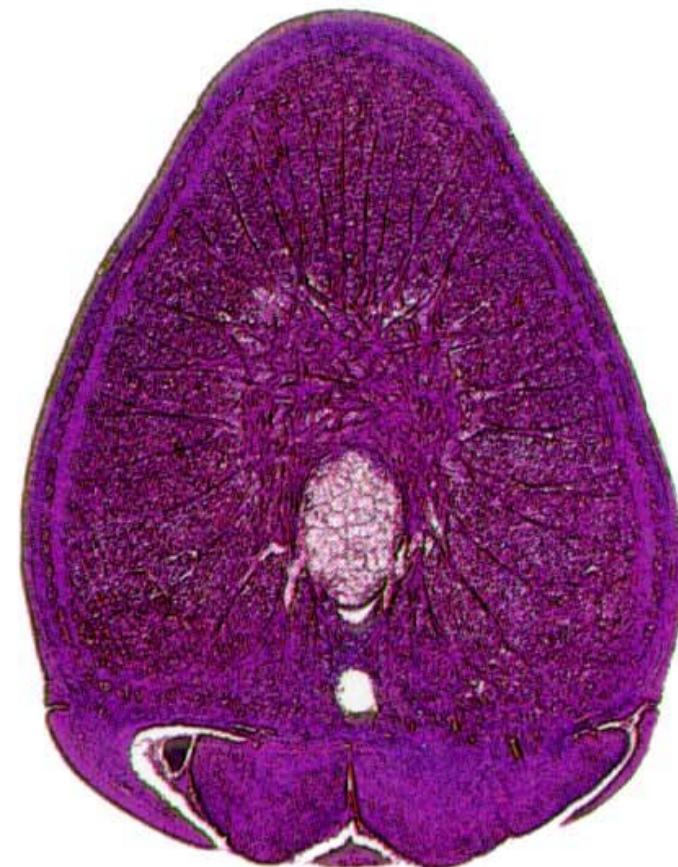

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Squid Tentacle

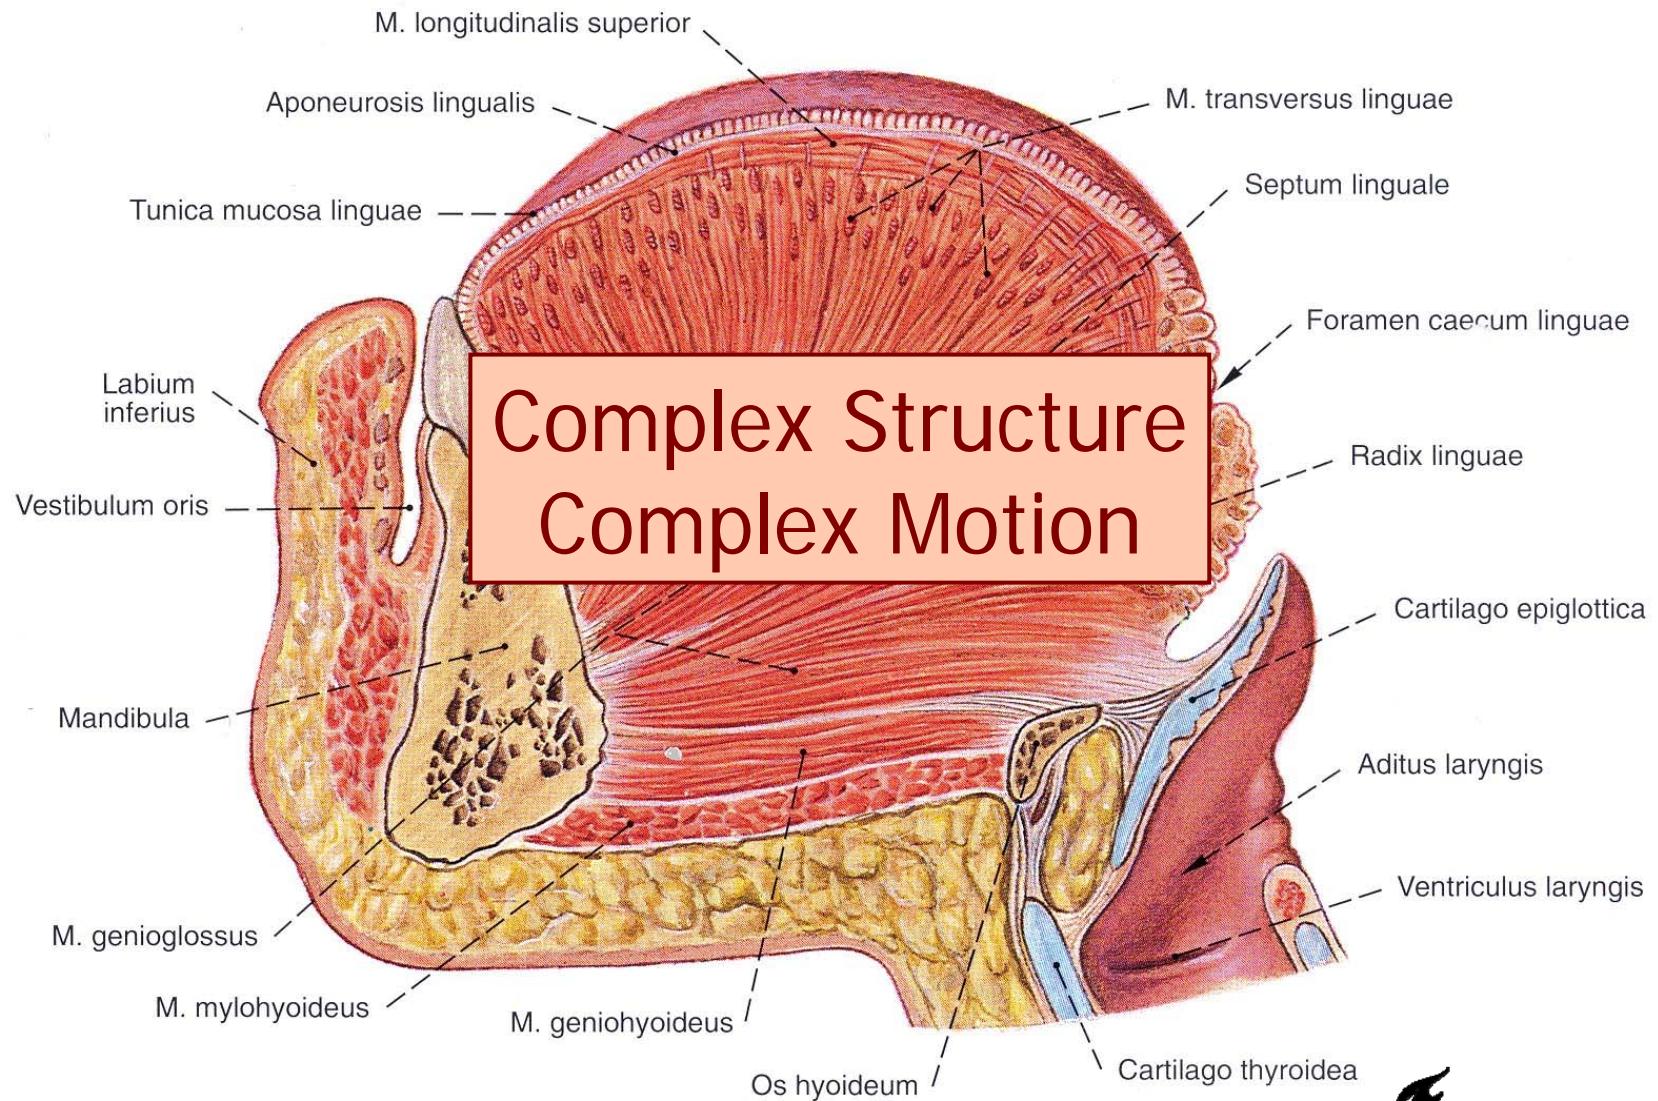

Sea Slug

Tendon Sheath

Hydro Skeleton

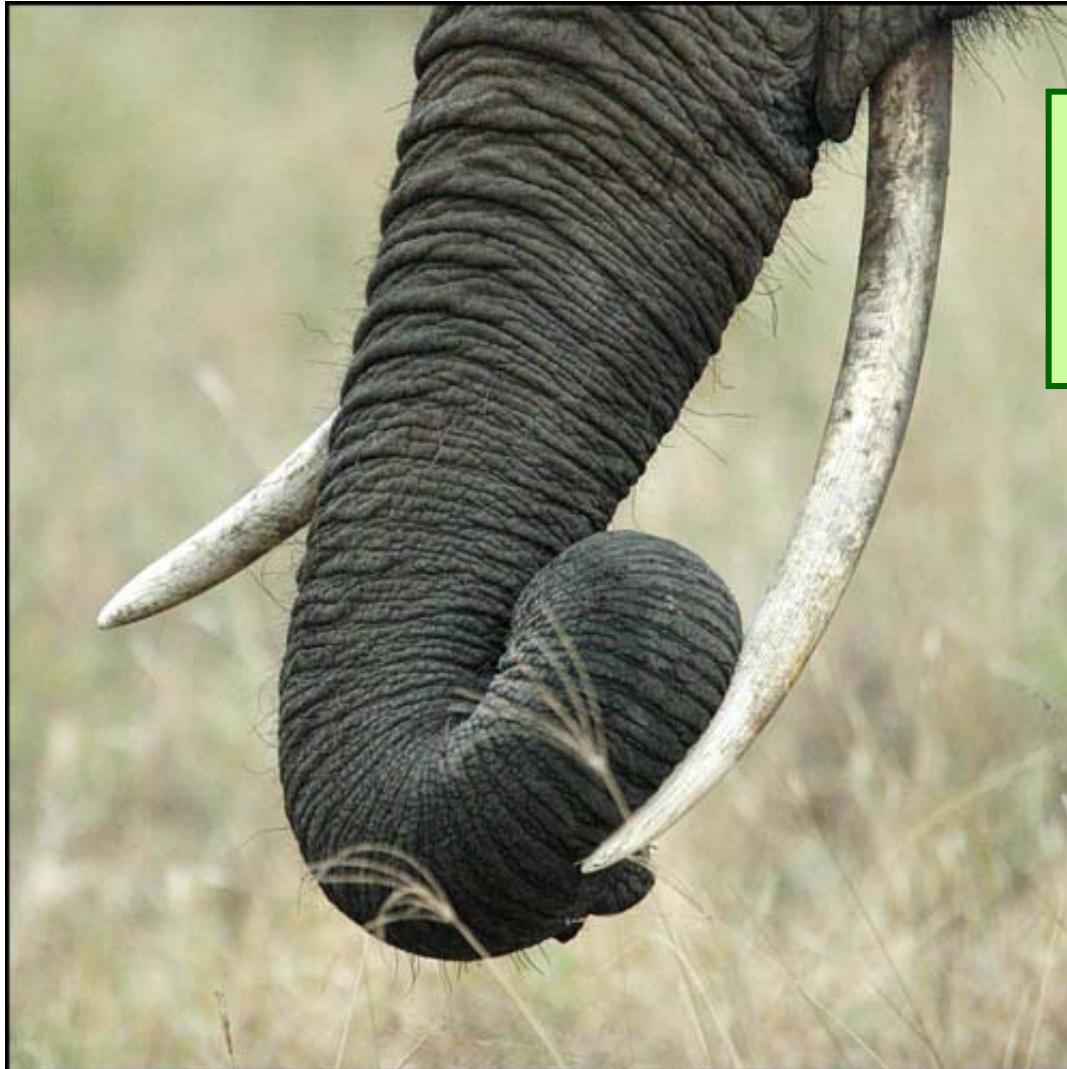

Hydro Muscular

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Increasing stiffness  
leads to higher  
hydrostatic pressure

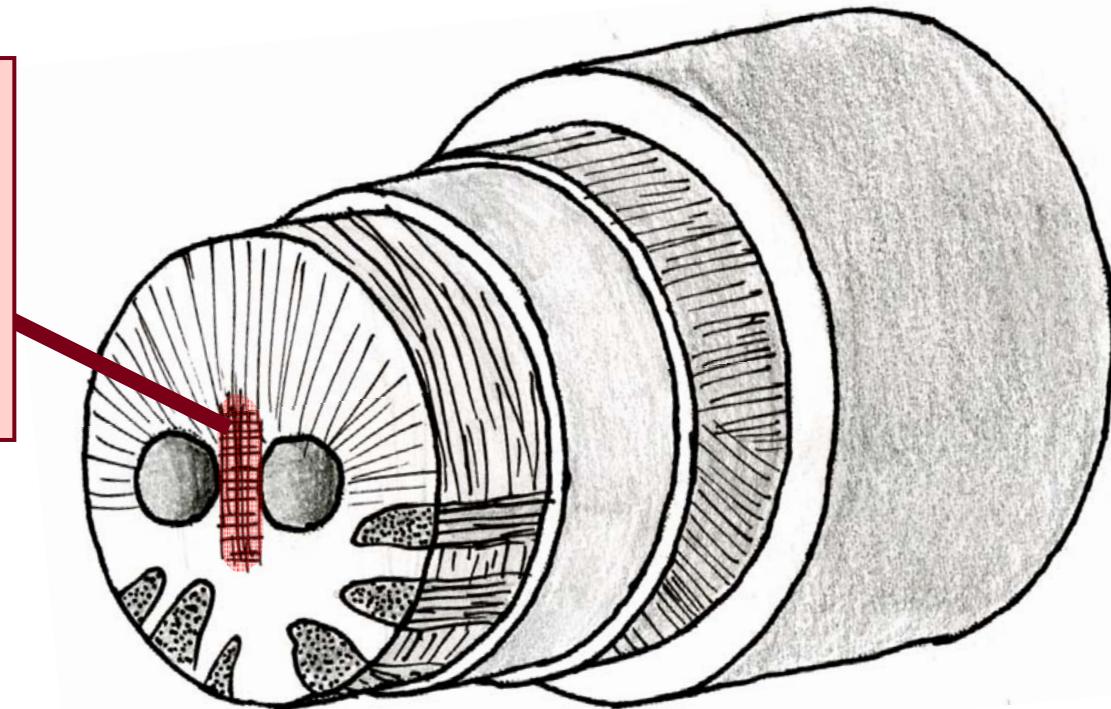

“How do  
elephants  
keep their  
nose open?”

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Muscular spine:  
Flexible link  
around which  
trunc can bend

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Cable Ring

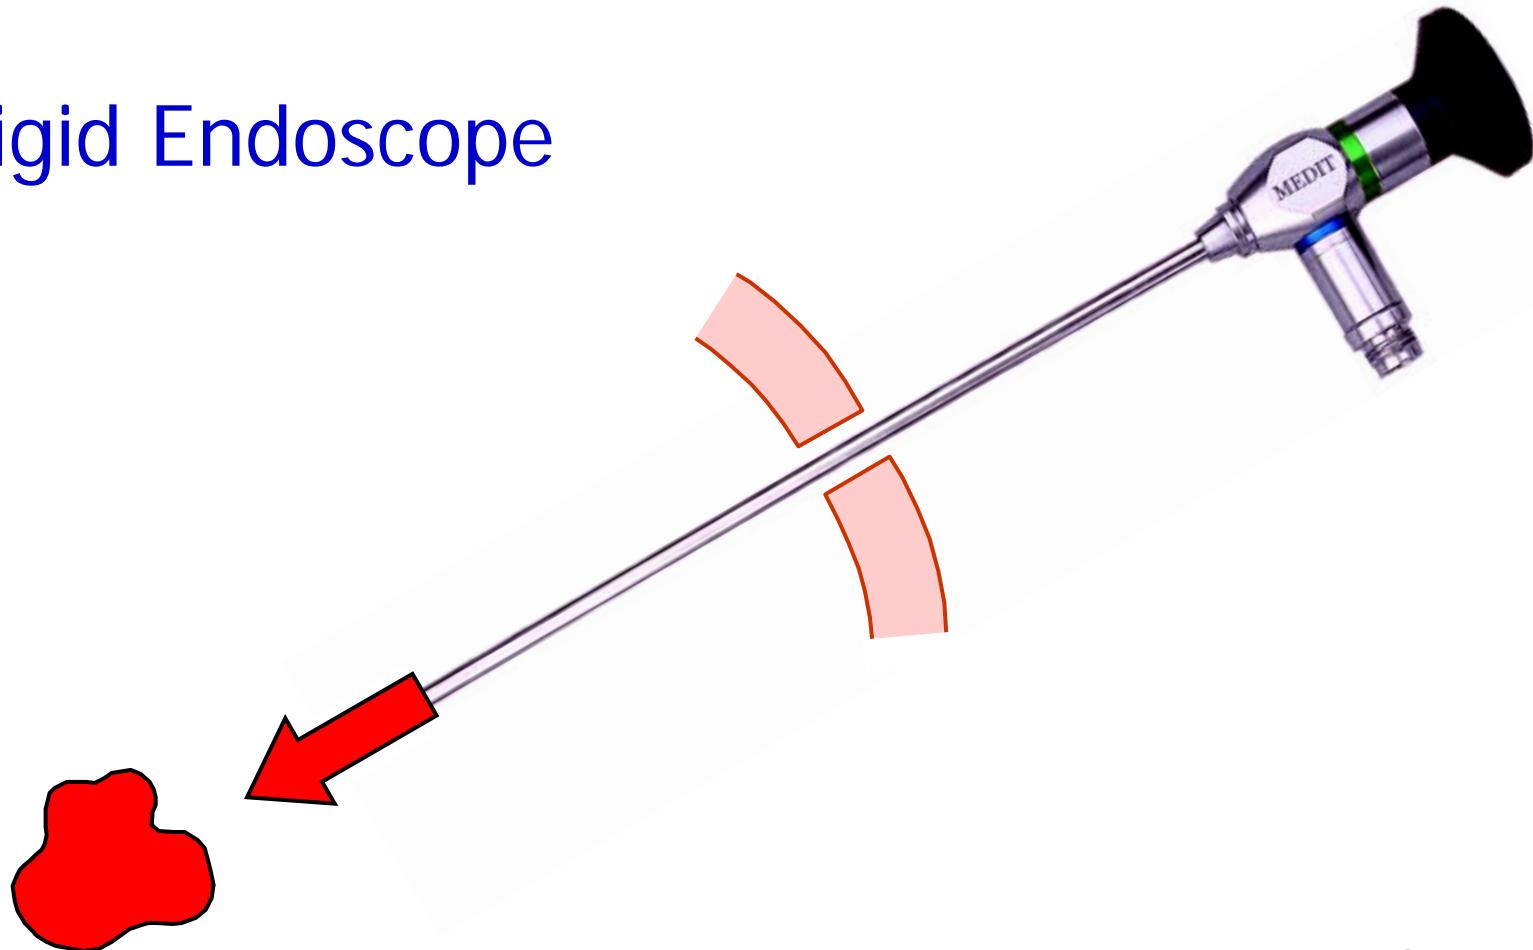

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Cable Ring

## Rigid Endoscope

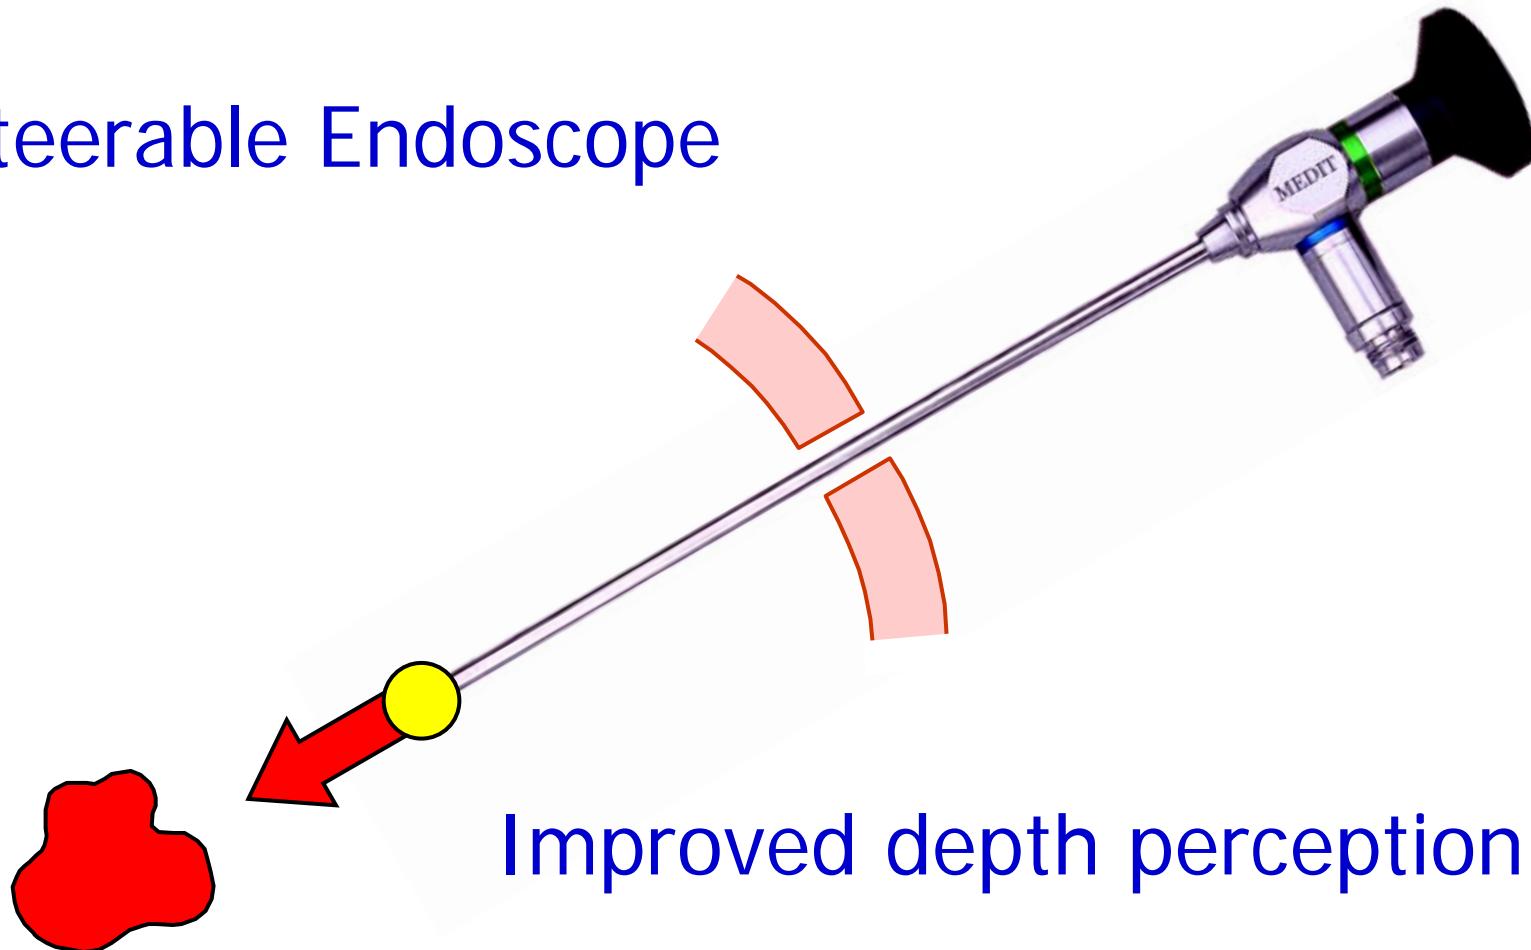

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Cable Ring

## Steerable Endoscope

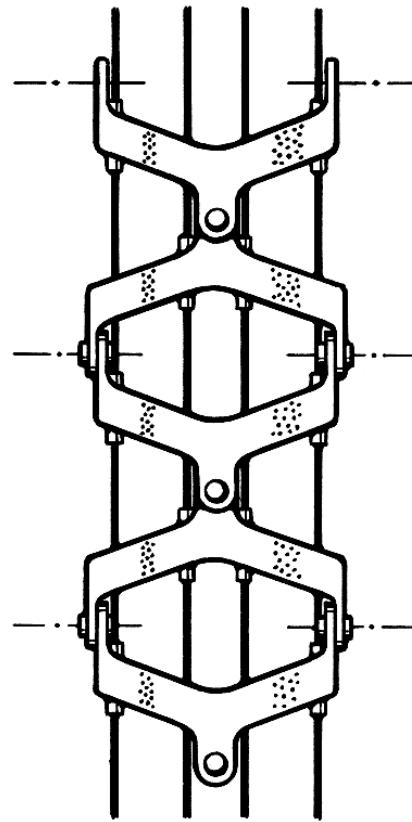

Improved depth perception!

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Cable Ring

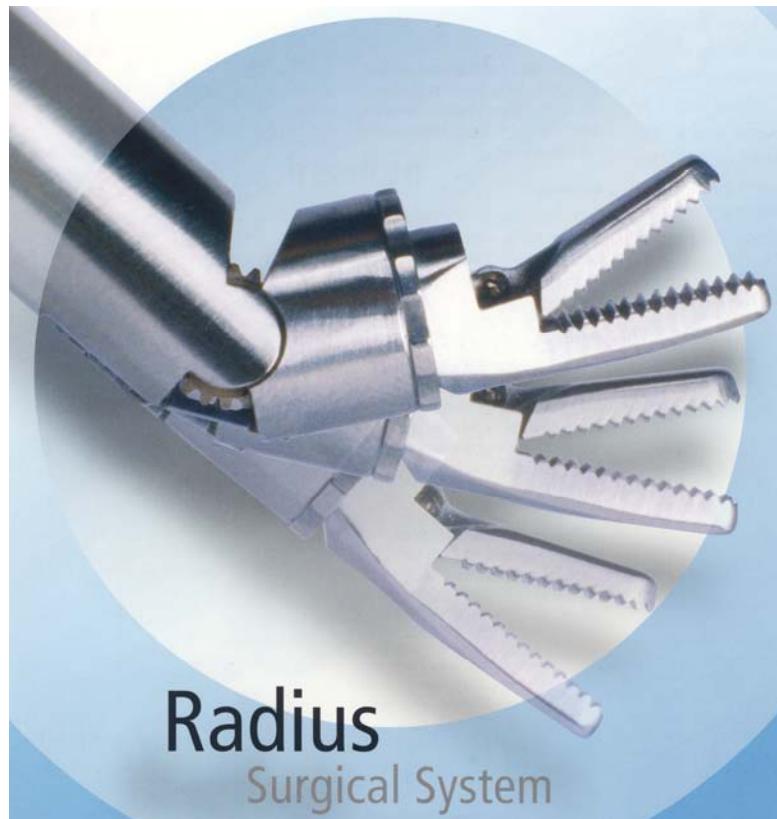

## Gastroscopes & Colonoscopes

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Cable Ring

Radius  
Surgical System

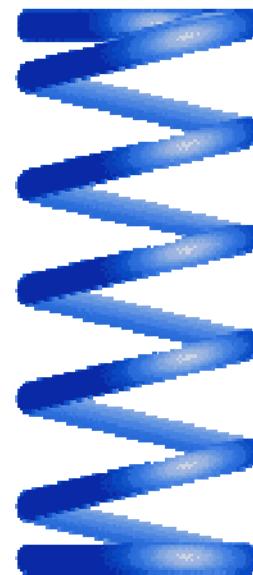

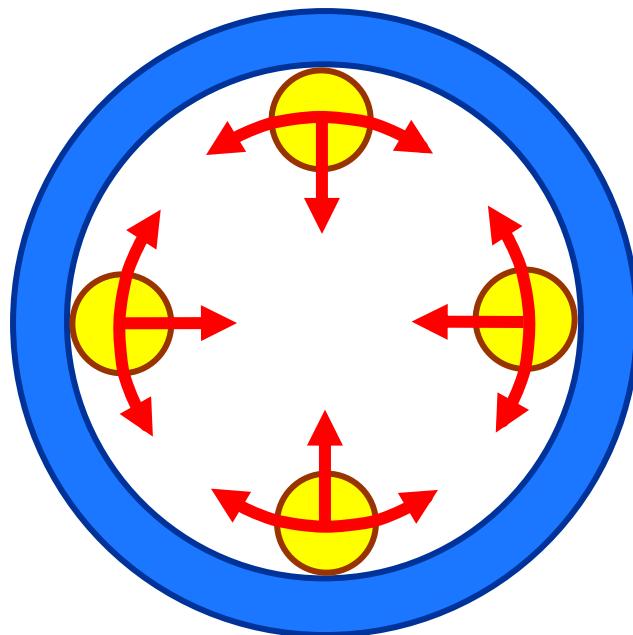

## Steerable Laparoscopic Instruments

Tendon Sheath

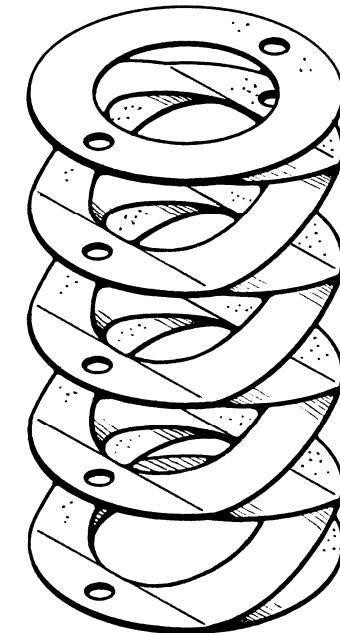

Hydro Skeleton

Hydro Muscular

Cable Ring

Coil  
Spring

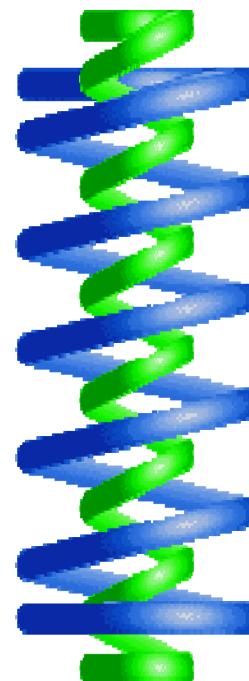

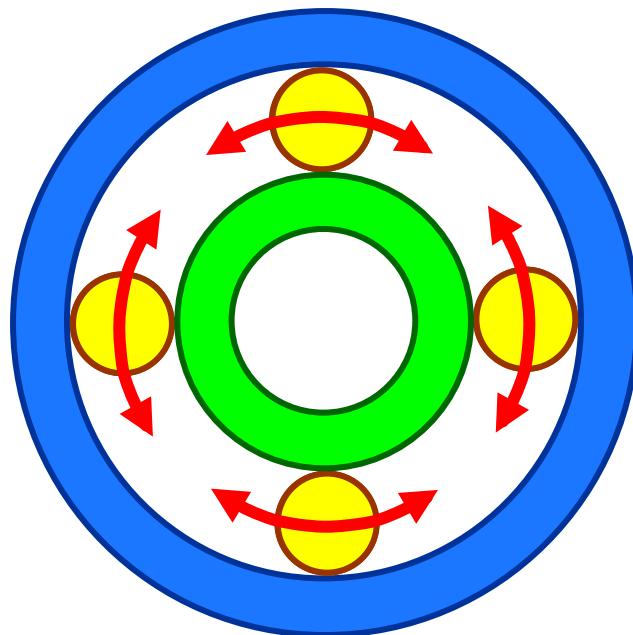

Ring  
Spring

Spring

Tendon Sheath

Hydro Skeleton

Hydro Muscular

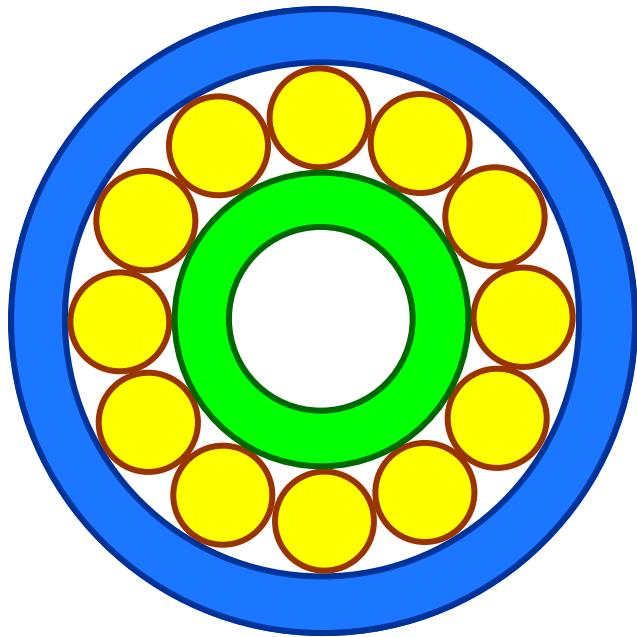

Cable Ring

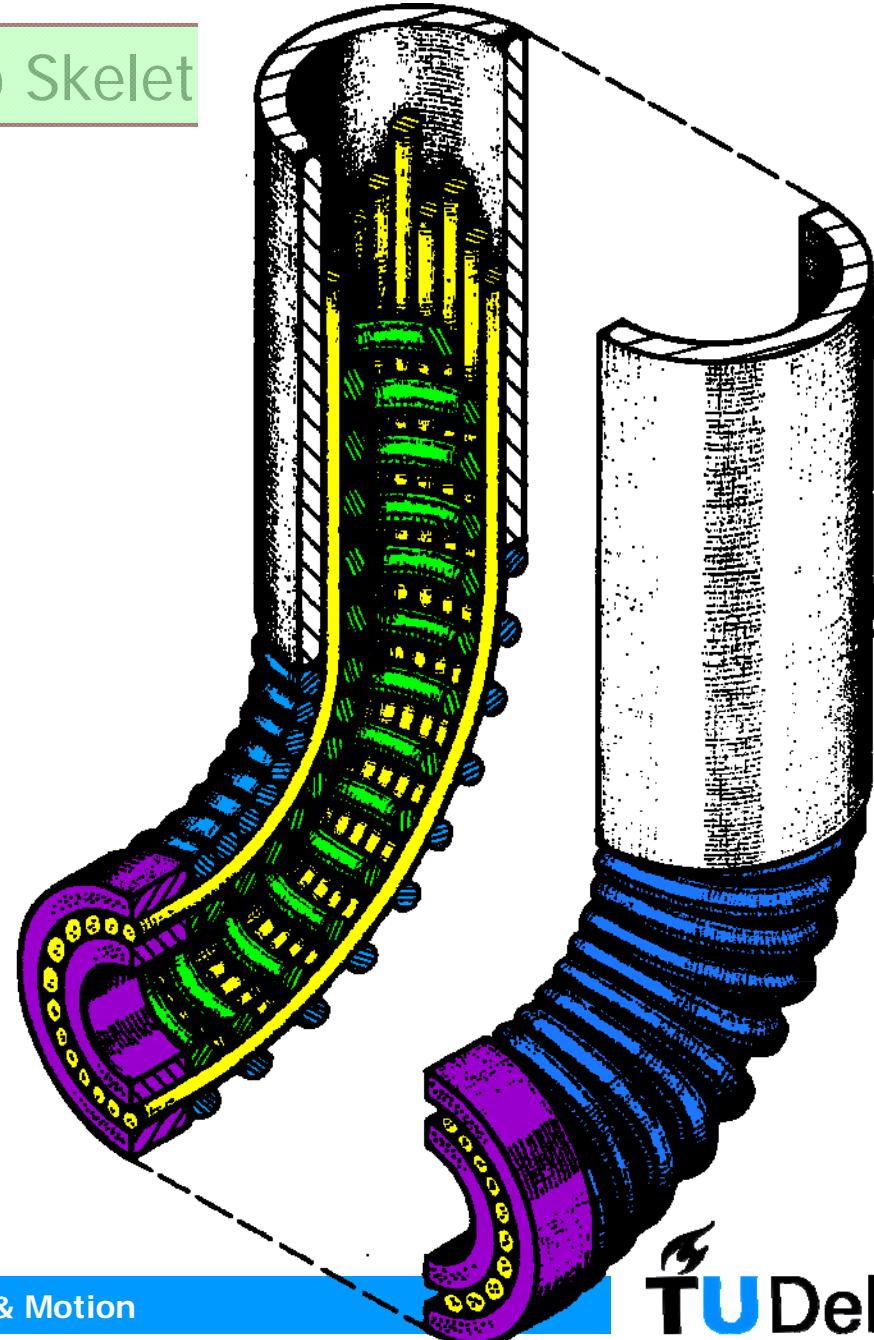

## Cable Ring Mechanism

Tendon Sheath

Hydro Skelet

## Cable Ring Mechanism

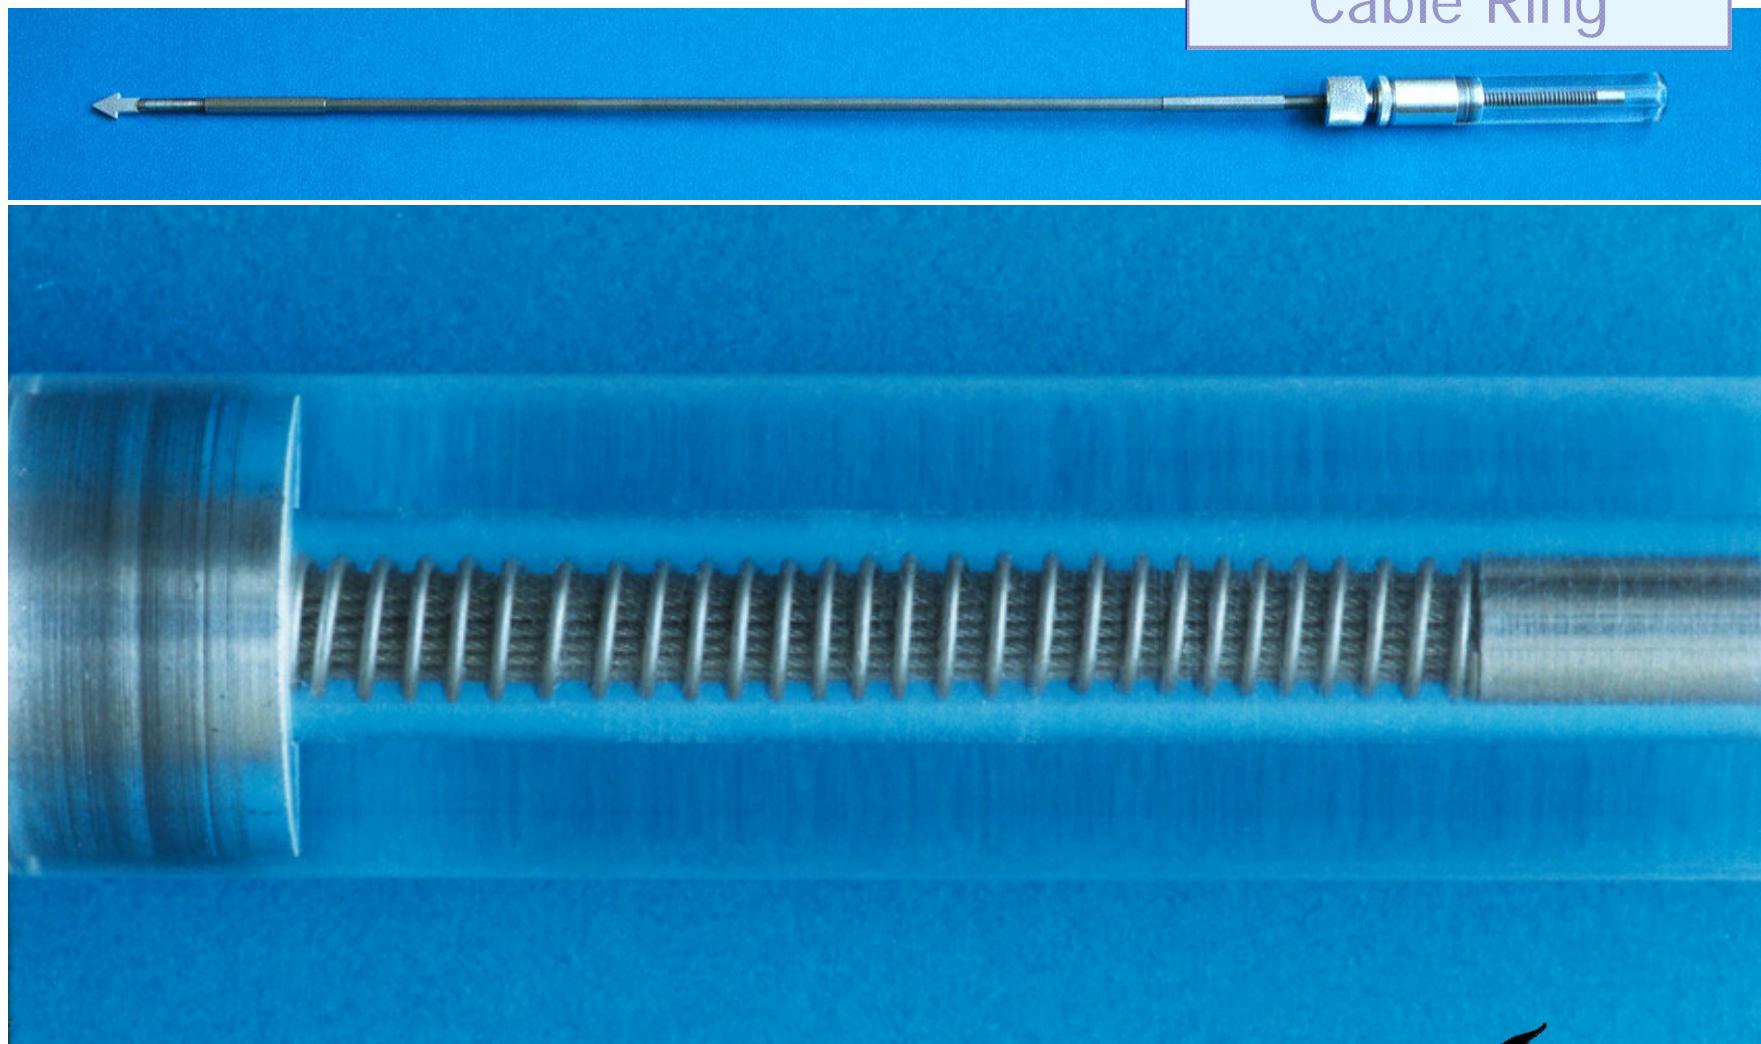

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Cable Ring

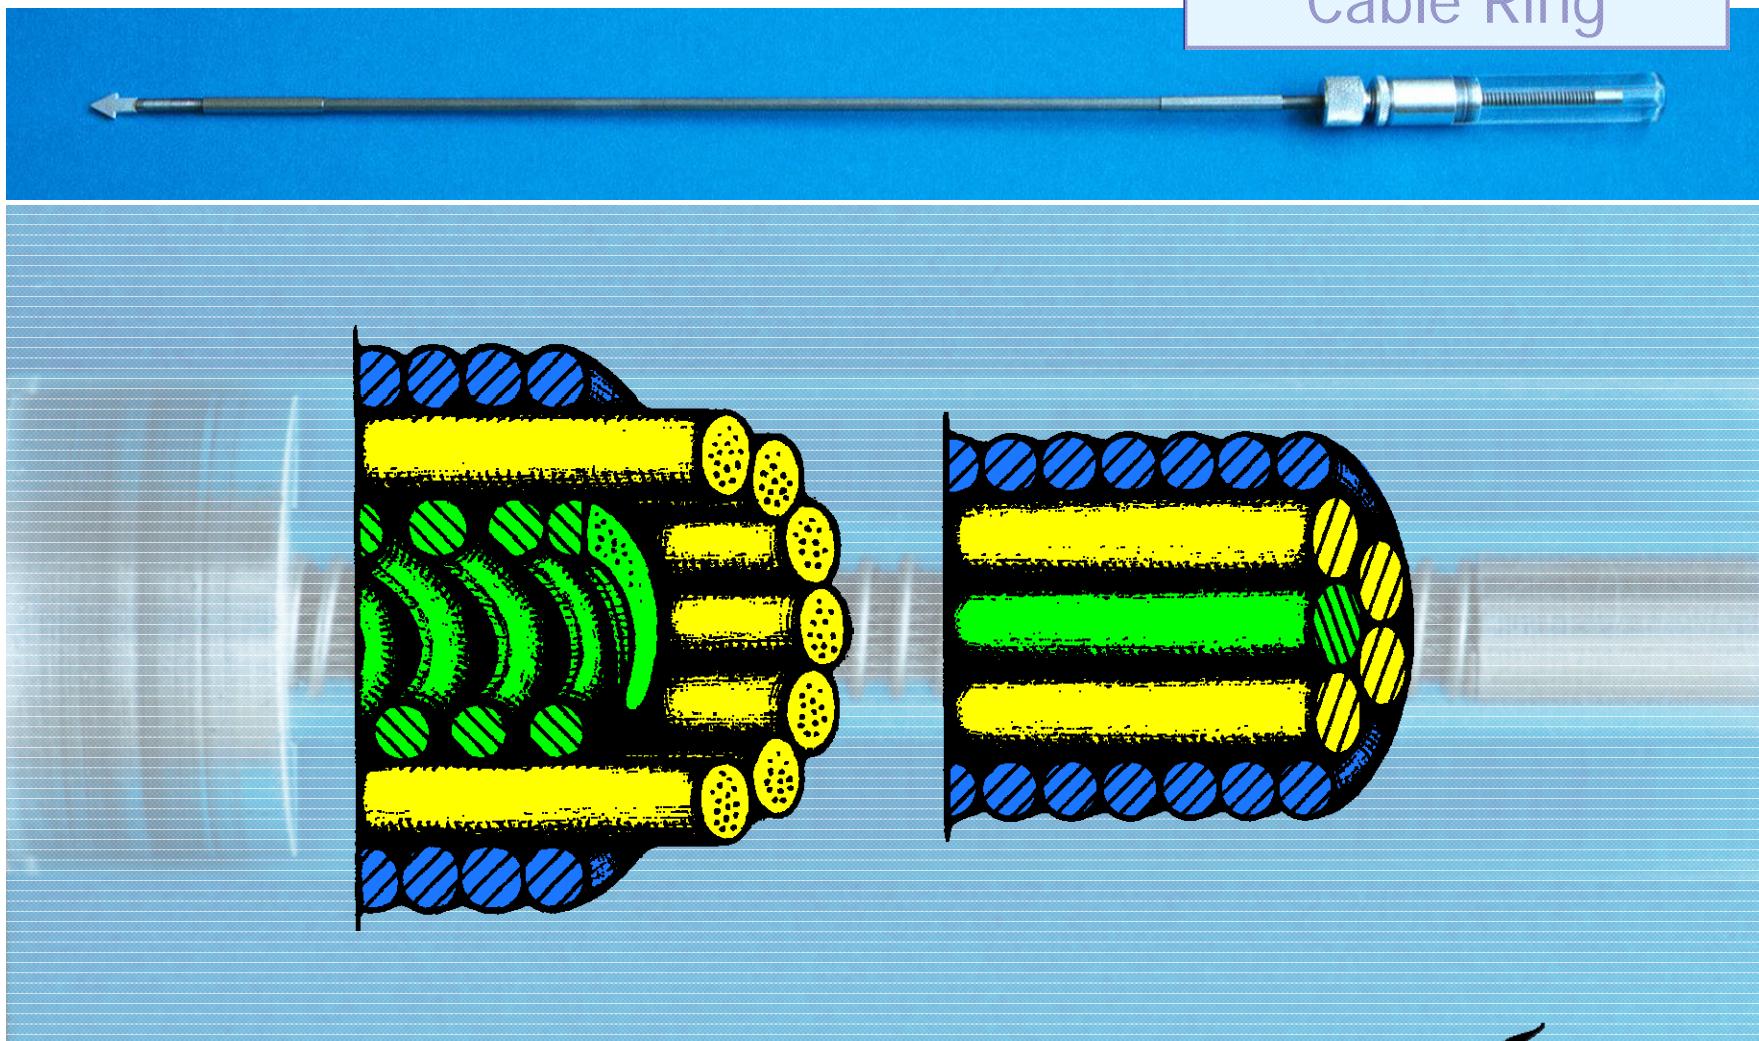

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Cable Ring

Tendon Sheath

Hydro Skeleton

Hydro Muscular

Cable Ring

- New steerable mechanism with great possibilities
- Very simple, very cheap
- Extreme miniaturisation possible
- World-wide patent application

Tendon Sheath

Biology gives creativity!

No imitation but *inspiration!*

Still a wealth of  
unused ideas..
