

WWF for a living planet®

Welcome at WWF-Netherlands

Our new office

july 2006

The right place

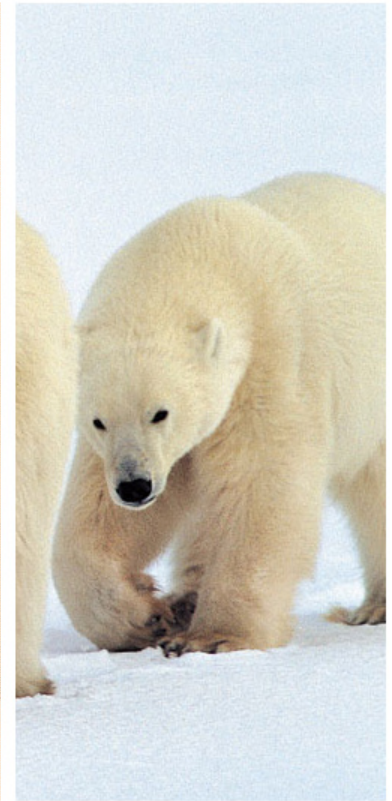

- More space
- In Zeist
- Near railway station
- Natural environment

Vision for the new building

- Low energy use
 - Sustainable energy sources
 - Sustainable materials
 - Inviting
 - Good example
-
- Looking for an architect and partners with the same vision

Low energy use

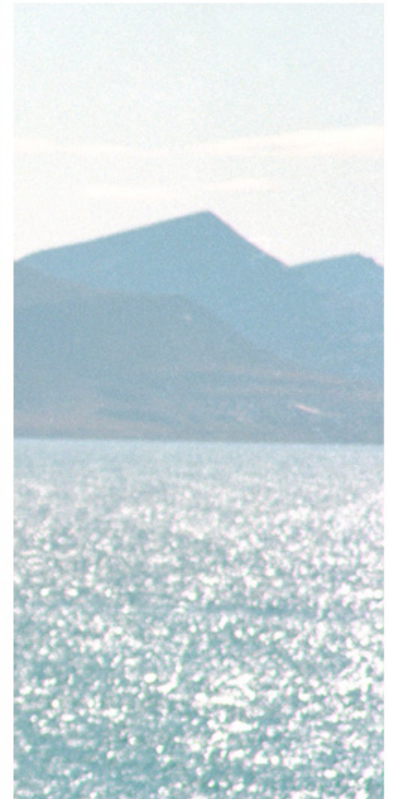

- Triple glass
- Wooden panels
- Sunshades
- Climate ceilings
- No air conditioning
- Lights
- Computers/servers

Energy sources

- Solar Panels
- Heat storage
- Plant oil
- Green electricity
- Bio gas

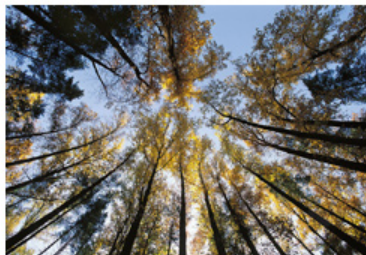

Plant oil used as fuel

Sustainable use of materials

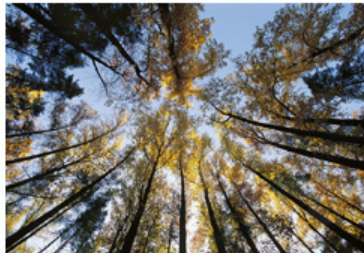

- Source
- Production environment
- Lifecycle
- Maintenance

Sustainability in the WWF office

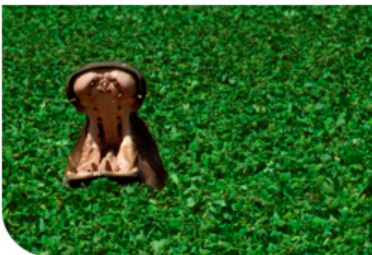

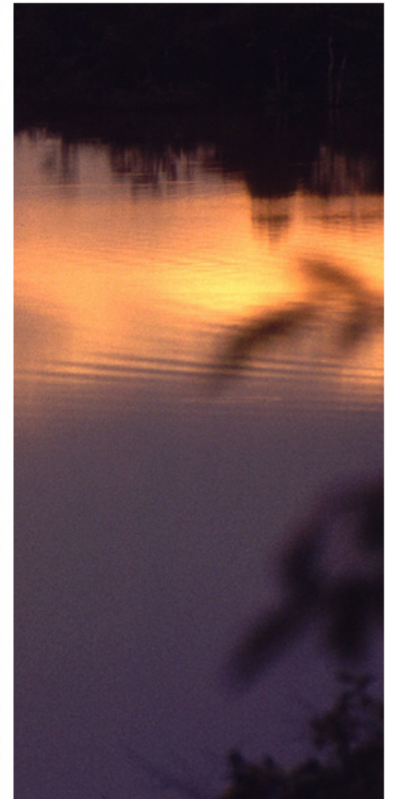

- Renovation instead of new building
- FSC
- Loam plaster
- Carpets
- Aqua flow

New office, new feeling

“...people create a building, after that the building forms the people...” (Churchill)

Working for nature...

Sustainable building in use

- Monitoring and learning
- Inspiring education tool
- Meeting place WWF and partners
